# TV Wall Mount FIXED

32 to 75 inch (81-191 cm), max. 45 kg, max. 400x400 mm (L)  
 37 to 86 inch (94-219 cm), max. 45 kg, max. 600x400 mm (XL)  
 43 to 100 inch (109-254 cm), max. 75 kg, max. 900x600 mm (XXL)

Extra-flat TV mount for particularly space-saving wall mounting with only 3 cm wall clearance

Easy installation in two steps: First, attach the mounting rails to the monitor, second, hook the rail into the wall mount

The integrated spirit level ensures precise alignment and easy installation of the television

Flexibly adjustable to the left or right on the wall rail for optimal alignment of the screen mount even after installation

The TV wall mount is suitable for most curved and flat-screen televisions from popular brands, such as Samsung (QLED and LED), Sony, Philips and LG, as well as many sizes

The TV mount is compatible with common VESA dimensions, depending on the mount model up to 400x400 mm, 600x400 mm and 900x600 mm

Packaging: Retail Box

# Ultra96 HDMI™ Cable

16K/60 Hz

16K @ 60 Hz / 8K @ 240 Hz (DSC)

96 Gbit/s

0.5–2.0 m

Ultra-high resolution: Up to 16K @ 60 Hz/8K @ 240 Hz (DSC) guarantee smooth, razor-sharp images – even on large televisions and large-format stage or stadium displays

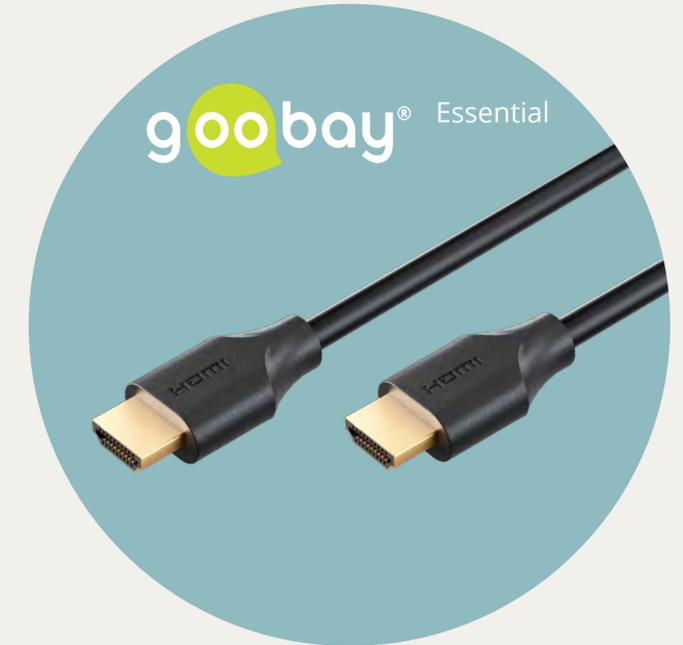

Ultra-high data rates: 96 Gbit/s doubles the previously possible transmission rate and ensures fast, smooth images in gaming or sports broadcasts

Top entertainment: Ideal for audio-video transmission, e.g. from game consoles (PlayStation 5, Xbox), streaming services and receivers (Amazon Fire TV, Apple TV) to TVs, monitors or projectors

High-contrast, colour-accurate images: Supports Dynamic HDR and uncompressed full chroma formats such as 8K @ 60 Hz/ 4:4:4 or 4K @ 240 Hz/4:4:4 with 10-bit and 12-bit colour depth

Seamless images for gaming: Quick Frame Transport (QFT) ensures interactive real-time VR, while variable refresh rate (VRR) reduces latency and stuttering

Great sound performance: The Latency Indication Protocol (LIP) minimises latency in audio transmission – for optimised audio and video synchronisation in home cinema systems

Optimised stability: With improved Fixed Rate Link (FRL) technology for fixed data rates and extremely stable transmissions – of course backwards compatible with the TMDS standard of earlier HDMI™ generations

Packaging: Cable Tag

# HDMI™ High Speed Cable with Ethernet

4K/60 Hz

4K @ 60 Hz

18 Gbit/s

20 m

The cable is suitable for high-resolution image transmission with Ultra HD at up to 4K @ 60 Hz (backward compatible) and a data rate of up to 18 Gbit/s

Ideally suited for audio and video transmission between TV/monitor and projectors, game consoles (e.g. PlayStation, Xbox) or streaming receivers (e.g. Amazon Fire TV, Apple TV)

The integrated Ethernet channel (HEC) connects any HDMI™ device to devices in the wired network without a separate internet cable

The CEC function (Consumer Electronics Control) creates flexible operability via only one remote control, e.g. for switching on several paired HDMI™ devices with a single press of a button

Supports 3D and HDR (High Dynamic Range) for excellent, high-contrast picture quality as well as the HDCP 2.2 encryption system

Supports advanced audio features such as eARC (Enhanced Audio Return Channel) and ARC (Audio Return Channel) for easy digital transmission from the TV to a soundbar or hi-fi system

Gold-plated contacts prevent corrosion and provide extra durability

Packaging: Cable Tag

# USB-C™ PD GaN Dual Fast Charger Nano (20 W)

1x USB-C™ port (Power Delivery) and  
1x USB-A port (Quick Charge)

20 W

1x USB-C™ PD

1x USB-A QC

With an output of 20 W, the charging adapter is specially designed for small devices such as smartphones, Bluetooth headphones, tablets or e-readers

The wall charger supplies up to two devices at once, e.g. smartphones such as the Apple iPhone via USB-C™ and headphones, power banks, etc. via USB-A

The super-compact and lightweight design fits in any bag and makes the USB-C™ power supply the handy option when travelling

Semiconductors with GaN technology allow for faster, more efficient charging and a lighter, more compact design compared to conventional chargers

With Power Delivery and Quick Charge, the USB charger comes with particularly safe and dynamic charging methods that identify the optimal output power for the connected device

Compatible with smartphone brands such as Apple, Samsung, Xiaomi, LG, Huawei, as well as tablets such as the Apple iPad or Samsung Galaxy Tab

The integrated protection electronics of the USB charging port shields connected devices against overcurrent, overcharging and overheating

goobay® Multi Fast Charger

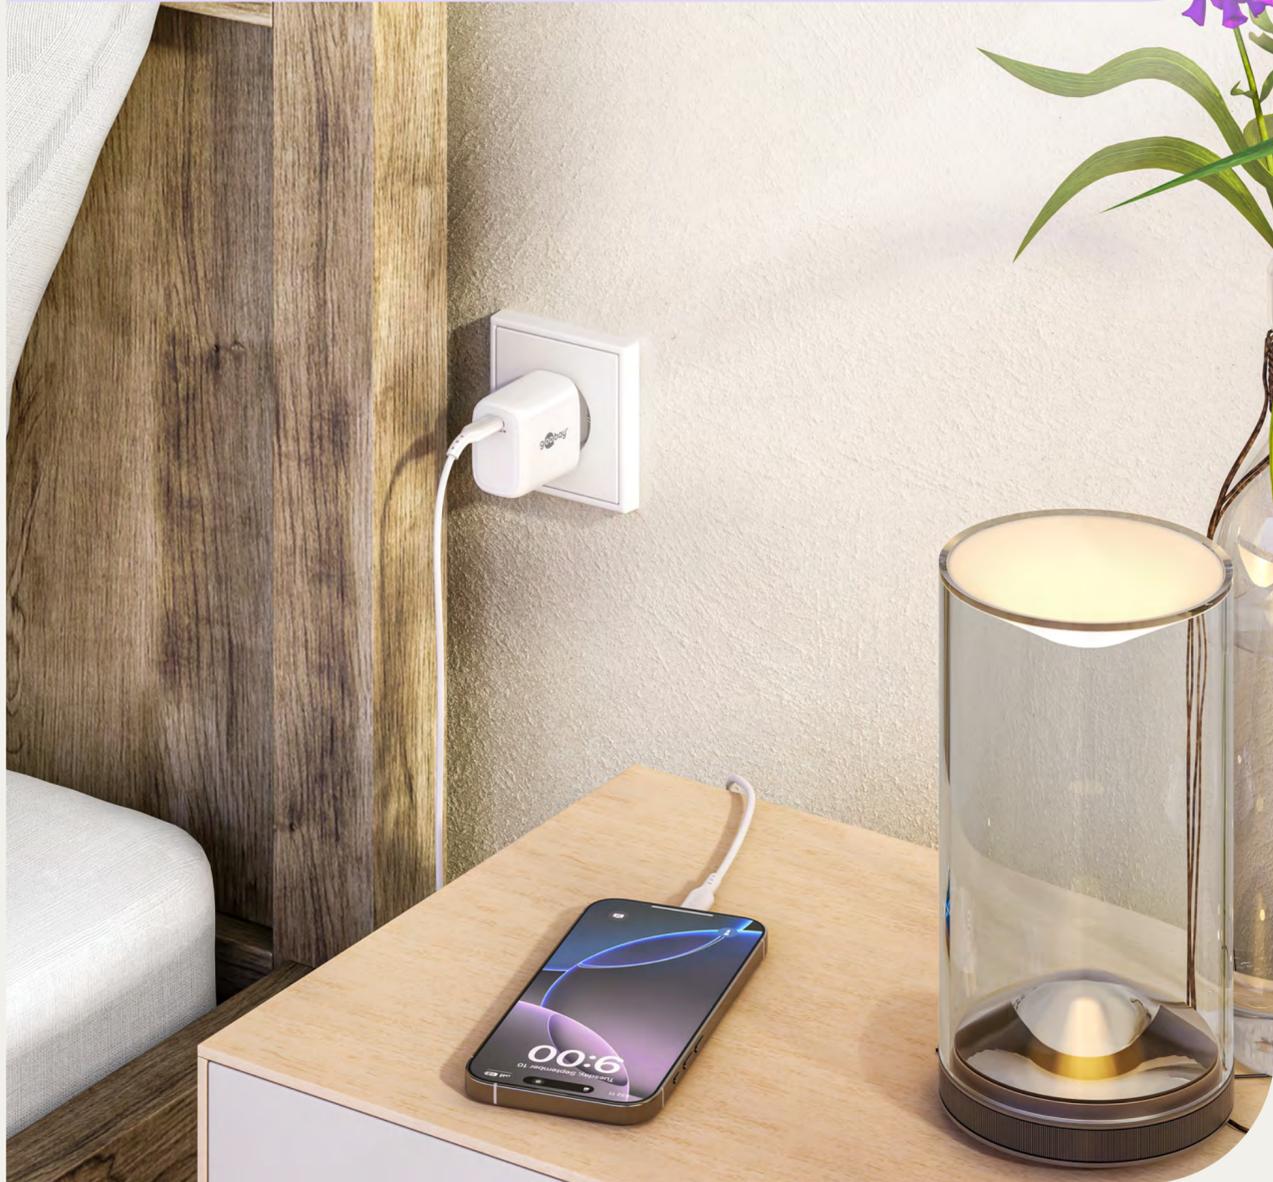

Packaging: Retail Box

# USB-C™ PD GaN Fast Charger (25 W)

1x USB-C™ port (Power Delivery)

25 W

1x USB-C™ PD

Equipped with Power Delivery, the USB-C™ wall charger charges up to 4x faster than standard chargers - from 0 % to 50 % in 30 min.

The USB charger is compatible with smartphones such as the Samsung Galaxy S25, S24, S23, S22, S21 or S20 and is identical in construction to the original EP-TA800 charger

Semiconductors with GaN technology allow for faster, more efficient charging and a lighter, more compact design compared to conventional chargers

Suitable as a charger or power supply for devices with USB-C™, e.g. tablets, Bluetooth speakers or portable game consoles such as the Nintendo Switch

With Power Delivery 3.0, the charging adapter comes with a particularly safe and dynamic charging method that identifies the optimal output power for the connected device

Due to its compact design and light weight, the USB-C™ adapter fits in any bag and becomes the ideal travel companion

Compatible with smartphone brands such as Apple iPhone, Samsung, Xiaomi, LG, Huawei, as well as tablets such as the Apple iPad or the Samsung Galaxy

# Slim 8-Port USB Hub with HDMI™ and RJ45

USB-C™ plug (USB 3.2) > 1x HDMI™, 1x RJ45, 2x USB-C™ (1x PD 100 W, 1x USB 2.0), 2x USB-A (USB 3.0), 1x SD, 1x microSD

Slim

8-Port

5 Gbit/s

4K @ 60 Hz

The handy USB-C™ hub expands one device port to eight connections: As a result, a single tablet or laptop port serves up to eight peripheral devices

The USB-C™ adapter supports HDMI™ up to 4K @ 60 Hz for crystal-clear images – perfect for smooth transmission without lag when gaming

The hub supports data rates of up to 5 Gbit/s via the USB-A ports (USB 3.0) and, via the USB-C™ ports, 1x Power Delivery with 100 W (power only) and 1x data rates of 480 Mbit/s

With RJ45 port for connecting network cables and integrated card reader for reading SD memory cards and microSD memory cards at up to 480 Mbit/s

With its compact, slim format, the USB splitter fits in any bag and is a handy companion when travelling or on the road

With high-quality, robust aluminium housing that is pleasant to the touch and exceptionally durable

The USB adapter is compatible with SSD via NVMe, operating systems such as Windows, macOS, Linux or Android and backwards compatible with USB 3.0 and USB 2.0

## 2-in-1 Slim 4-Port USB Hub

USB-C™ plug/USB-A plug (USB 3.2) > 4x USB-A (USB 3.0)

Slim

2-in-1

4-Port

5 Gbit/s

The handy USB-C™ hub expands one device port to four connections: As a result, a single tablet or laptop port serves up to four peripheral devices

The flexible single-cable solution: A USB-C™ plug is integrated into the USB-A plug – simply pull the USB-A plug off to connect the cable to a USB-C™ port

Compatible with all standard USB-A devices, e.g. smartphones, keyboards, mice, webcams, hard drives (SSD, HDD) or headsets – without the need to install separate drivers

The USB distributor supports SuperSpeed data rates of up to 5 Gbit/s, perfect for transferring large amounts of data such as films or streaming

With its compact, slim format, the USB splitter fits in any bag and is a handy companion when travelling or on the road

With high-quality, robust aluminium housing that is pleasant to the touch and exceptionally durable

The USB adapter is compatible with SSD via NVMe, operating systems such as Windows, macOS, Linux or Android and backwards compatible with USB 3.0 and USB 2.0
