# Soft HDMI™ High-Speed Cable with Ethernet

4K/60 Hz

**Ultra-Flexible**  
effectively prevents  
cable breakage

4K @ 60 Hz

18 Gbit/s

0.5 – 5.0 m

Super soft and ultra-flexible: The soft cable sheath guarantees easy cable routing with a small bending radius – perfect for confined spaces, e.g. behind the television

The cable is suitable for high-resolution image transmission with Ultra HD at up to 4K @ 60 Hz (backward compatible) and a data rate of up to 18 Gbit/s

Ideal for audio-video transmission, e.g. from game consoles (PlayStation 5, Xbox), streaming services and receivers (Amazon Fire TV, Apple TV) to TVs, monitors or projectors

The integrated Ethernet channel (HEC) connects any HDMI™ device to devices in the wired network without a separate internet cable

The CEC function (Consumer Electronics Control) creates flexible operability via only one remote control, e.g. for switching on several paired HDMI™ devices with a single press of a button

Supports 3D and HDR (High Dynamic Range) for excellent, high-contrast picture quality as well as the HDCP 2.2 encryption system

Supports advanced audio features such as eARC (Enhanced Audio Return Channel) and ARC (Audio Return Channel) for easy digital transmission from the TV to a soundbar or hi-fi system

Packaging: Cable Tag

# XLR Cable to 6.35 mm Plug

XLR male (3-pin) > 6.35 mm male (3-pin) - balanced mono

3-pin

1 - 10 m

Flexible XLR cable for analogue audio transmission, e.g. in music studios or rehearsal rooms, as a microphone cable when recording podcasts and live streaming

Ideal for transmission via active loudspeakers or active monitors, studio microphones, mixing desks, effects devices, DJ equipment and amplifiers

The 3-pin, balanced design enables loss-free audio transmission over long distances - without noise, crackling or interference

Flexible and stable: With a thick, flexible PVC sheath to effectively protect the stereo cable from crushing, trampling and cable breakage - perfect for use on stage or in rehearsal rooms

3x quality for durability: Copper conductors, die-cast zinc plugs and moulded bend protection make the audio cable extremely robust and resistant

Securely connected with a click: The socket with snap lock engages securely and prevents the plug from accidentally slipping out

Packaging: Sleeve

# XLR Cable

XLR male (3-pin) > XLR female (3-pin)

3-pin

1 - 20 m

Flexible XLR cable for analogue audio transmission, e.g. in music studios or rehearsal rooms, as a microphone cable when recording podcasts and live streaming

Ideal for transmission via mixing desks, microphones, D/A converters, amplifiers, electric musical instruments or loudspeakers and in stage technology

The 3-pin, balanced design enables loss-free audio transmission over long distances - without noise, crackling or interference

Flexible and stable: With a thick, flexible PVC sheath to effectively protect the cable from crushing, trampling and cable breakage - perfect for use on stage or in rehearsal rooms

3x quality for durability: Copper conductors, die-cast zinc plugs and moulded bend protection make the audio cable extremely robust and resistant

# Laptop Power Bank 20,000 mAh with Power Delivery

65 W, power bank with Power Delivery and Quick Charge for fast charging mode

20,000 mAh

max. 65 W

2x USB-C™ PD

1x USB-A QC

**Triple power:** The power bank charges up to 3x devices simultaneously via 2x USB-C™ and 1x USB-A with a total max. of 65 W

**Powerful backup:** Ideal for laptops, smartphones, tablets, larger Bluetooth speakers and portable consoles such as the Steam Deck or Nintendo Switch

**Always reliable:** When fully charged, it can recharge even energy-hungry devices several times

**Super fast:** Power Delivery (USB-C™) and Quick Charge (USB-A) ensure up to 4x faster charging of the power bank and connected devices compared to conventional power banks

**100 % accurate:** The digital LED display shows the charge status of the external battery to the nearest per cent

**Simply flexible:** The power bank is recharged via the combined USB-C™ input/output, e.g. by connecting it to a USB charger or laptop (including 0.5 m charging cable USB-C™ to USB-C™)

**Highly compatible:** Thanks to the universal USB ports suitable for devices from many manufacturers, e.g. Samsung Galaxy, Xiaomi, Lenovo or Huawei, as well as Apple MacBook, iPhone or iPad

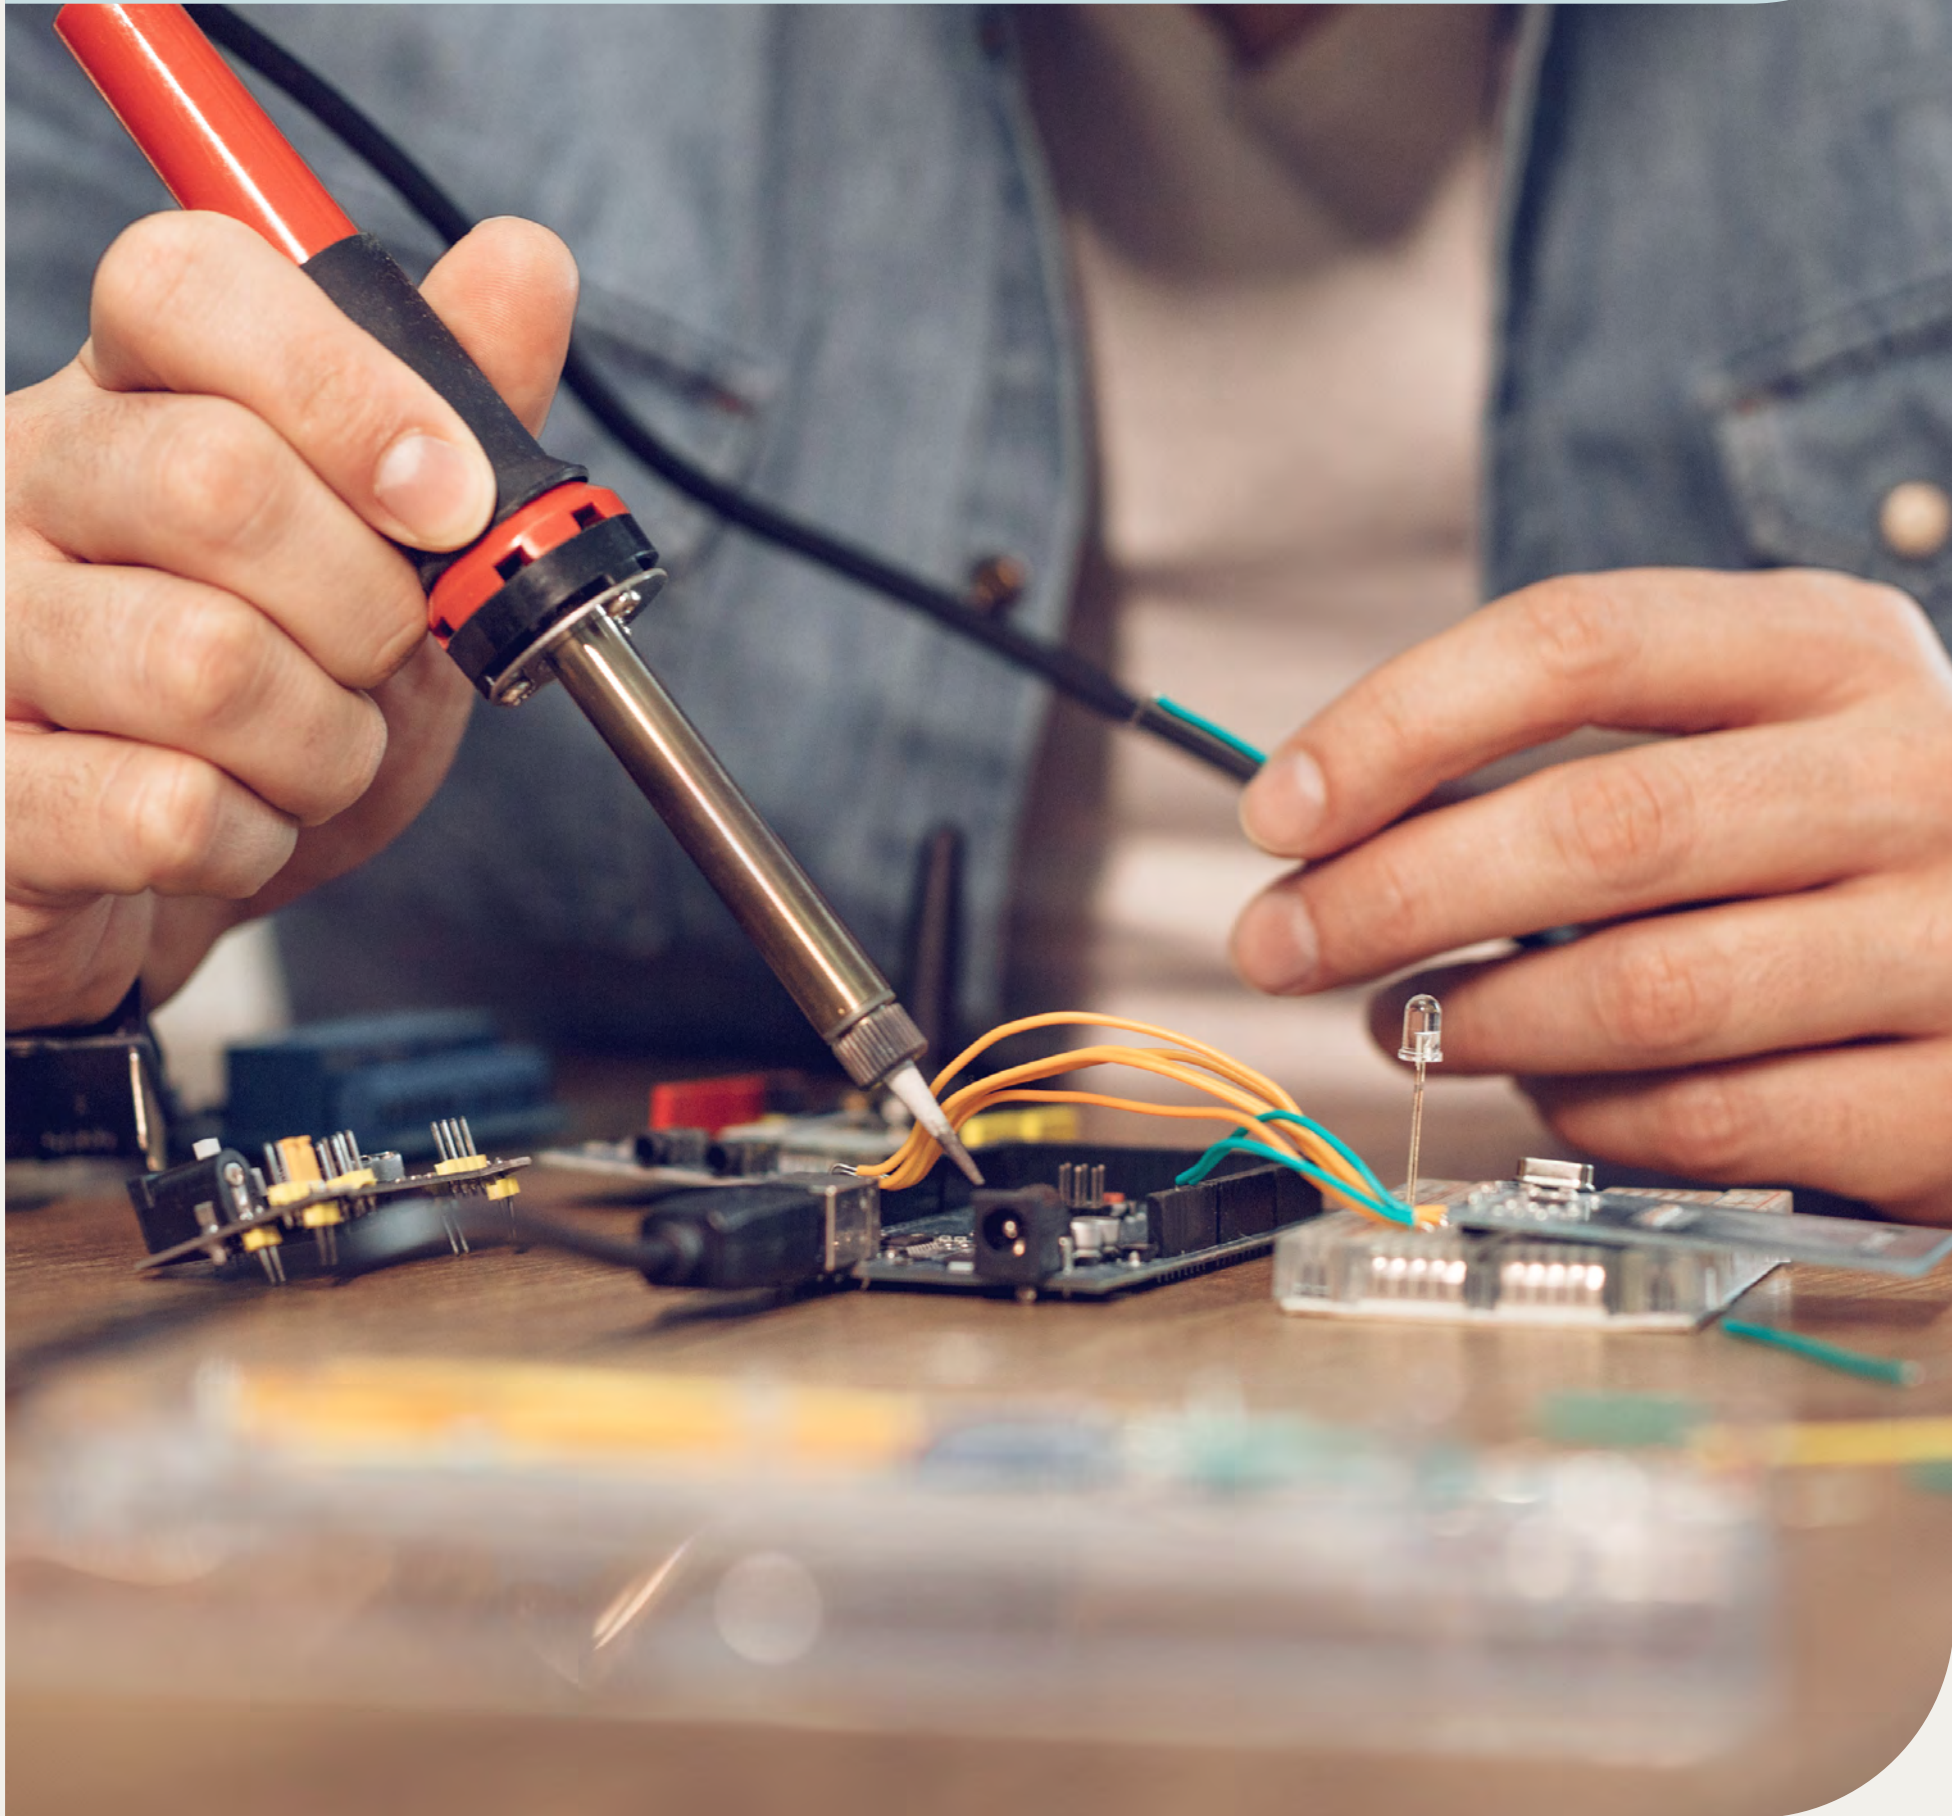

Packaging: Retail Box

# Micro-USB Plug, Solder Version

2.5 W, 0.5 A, 480 Mbit/s, USB 2.0

2.5 W

0.5 A

480 Mbit/s

USB 2.0

Micro-B plug for solder mounting on power supplies, electronic or charging cables, e.g. from Raspberry Pi 1-3, tablet, headphones, Bluetooth headset or speaker, camera, mouse and keyboard

Ideal as a replacement plug to repair or replace a defective USB cable, e.g. on lighting such as fairy lights or Christmas lights with USB power connection

The black plastic housing snaps into place easily and securely – without laborious pushing or accidental slipping out of the plug

Assembled in three steps: Solder the wires, place the two connector shells on top of each other and slide the housing over the shells until it clicks into place

Suitable for cables with a maximum outer diameter of 4 mm

Note: Not suitable for OTG (USB On-the-go)
