

Make customers eyes shine.

Start the LED season with us.

It's time to make yourself snug at home again.
In many households, this also means: power guzzlers out, LEDs in!

Start the LED season with us so that things are not only energy-efficient, but also cosy: Discover the versatile range of light bulbs, LED filament bulbs in a retro design, elegant real wax LED candles and atmospheric LED fairy lights.

When does it make sense to purchase LED lamps?

For every room where the lights remain on for longer than 2.5 hours/day on average throughout the year as you will already have saved money within a year!

Which colour temperature?

Based on their Degrees Kelvin rating, LED lighting is classified into three colour temperatures: warm white, neutral white and cold white. The light of a classic incandescent bulb is matched by a warm white LED lamp with 2700 K. The LED colour rendering index is also significant: values above 80 Ra guarantee good colour fidelity and provide a lively, natural perception.

Goobay

LED Reflector, 2 W

base GU4, 16 W equivalent, warm white, not dimmable

- warm white light with 3000 K like an incandescent bulb
- true, natural colors thanks to 80 Ra
- does not get hot and is immediately bright when switched on

Operating voltage	12 V (DC)
Beam angle	36 °
Dimensions	40 x 35 mm
