Tidy up & put in oɹdǝɹ?

Cable management made easy.

Power cables, connecting cables and charging cables - Behind and on the desk, a wide variety of different types of cables accumulate, which are indispensable in a modern office despite WLAN and Bluetooth. In companies, in the home office and in the private sector, the following applies: cable management systems prevent cable chaos and **ensure tidy and risk-free working**.

Safety at work
Loose cables are real tripping hazards. To avoid (work) accidents, Goobay's flexible slots & clips are ideal. Damage to the cable can also be easily avoided.

Simple and safe installation
The durable and strong 3M adhesive surface provides a reliable hold. By the way, it can also be used in the car!

Simplified cleaning
Well organized cable connections not only look more professional, they also prevent the accumulation of dust and dirt. Another plus point for cable management systems.

Point of Sale Support

What more is there to do when selling cables than to put them straight into order?
As a **second placement** in the trade and online as a **cross-selling** item, you could earn
simple additional revenues.

*To be confirmed

We support you with our creative POS ideas, ...
- ... to place the products exactly where they will stand out.
- ... because they are a good advertising material to draw attention to something new.
- ... so that you can offer a wide range of products at the POS.

The placement can be chosen variably.
