

## Solder lead-free for precise work.

New: Affordable variants with silver content.

Now you can rely on environmentally friendly brand solder in your assortment. Thanks to the flux cores it can still be processed precisely. The 0.3 % silver content also improves electrical conductivity. A clean job: no cleaning of the capillary joints is required after the work. Let your customers choose between 0.56 and 1.5 mm solder thickness.

### Solder lead-free

content: 0.3 % silver, 0.7 % copper, 96.5 % tin; content of flux core: 2,5 %; melting point 217° C

- environmentally friendly brand solder
- improved electrical conductivity by means of silver content (0.3%)
- no cleaning of the capillary joints after soldering necessary
- with continuous flux core

#### ø 0,56 mm
