

The cool opportunity for hot sales!

Ready for summer 2020?

USB fans on your desk ensure a refreshing working environment on hot days. Connection is via PC, laptop or other USB devices. The fans are quiet and have low power consumption. They are available in two sizes and three colours: copper, silver and black.

Table and floor fans complete the range. The retro versions impress with their chic yet robust metal housing. All fans are particularly quiet thanks to the electric motor.
