

Desk lamps with benefits.

Good ideas in the best light.

Whether with a ventilator, practical clip, touch panel control or a display with calendar, clock and temperature - each of the four desk lights has at least one feature that your customers will not want to do without in the future. The modern, flexible workplace lighting simply blends into the desk design. Thanks to LED technology, your customers can rack their brains about everything at their desks - up to the service life of their desk lamps.
