

For all those who associate bits with a workshop and not volumes of data.

Smart tools for effortless do-it-yourself projects.

This tool series will make the heart of any DIY enthusiast beat faster. Nine sets contain the right equipment for smaller and larger do-it-yourself projects. Screwdrivers, ratchet screwdrivers and precision screwdrivers enable screwdriving and assembly work to be completed quickly. High level of comfort: the ergonomic handles offer a secure and comfortable hold. Chrome-vanadium steel (CRV) increases the deformation resistance, and thus the service life, of the tools.

The individual sets surprise with clever details such as an integrated LED light, a switching ring and practical boxes to change bits effortlessly.

**Do It
Yourself**

Goobay

13-piece ratchet screwdriver set

can be easily converted from a baton design to a pistol grip

- for maximum torque when screwing or assembling
- switchover ring (right, fixed, left) saves a lot of time when fastening
- stable tips ensure reliable torque transmission and quick fastening
- handle can be rotated to easily reach spots that are otherwise difficult to access
- made from chrome vanadium steel (CrV) with increased deformation resistance
- extra non-slip due to rubberised shaft
- ergonomic handle provides a comfortable, firm grip when working

74000 Retail Blister

Goobay

14-piece LED ratchet screwdriver set

work in the dark thanks to the integrated light

- made from chrome vanadium steel (CrV) with increased deformation resistance
- storage compartment in the handle for 12 bits
- switchover ring (right, fixed, left) saves a lot of time when fastening
- stable tips ensure reliable torque transmission and quick fastening
- extra non-slip due to rubberised shaft
- ergonomic handle provides a comfortable, firm grip when working

74007 Retail Blister

Goobay

15-piece ratchet screwdriver set

with practical bit storage directly in the handle

- made from chrome vanadium steel (CrV) with increased deformation resistance
- stable tips ensure reliable torque transmission and quick fastening
- switchover ring (right, fixed, left) saves a lot of time when fastening
- ergonomic handle provides a comfortable, firm grip when working
- for maximum torque when screwing or assembling
- easy to change bits

74001 Retail Blister

Goobay

33-piece ratchet screwdriver box

for maximum torque when screwing or assembling

- made from chrome vanadium steel (CrV) with increased deformation resistance
- switchover ring (right, fixed, left) saves a lot of time when fastening
- stable tips ensure reliable torque transmission and quick fastening
- ergonomic handle provides a comfortable, firm grip when working
- foldable box makes changing bits easy
- extra non-slip due to rubberised shaft

74004 Sleeve

Goobay

42-piece ratchet screwdriver box

with a removable handle for 12 bits and a practical box

- made from chrome vanadium steel (CrV) with increased deformation resistance
- stable tips ensure reliable torque transmission and quick fastening
- ergonomic handle provides a comfortable, firm grip when working
- extra non-slip due to rubberised shaft
- easy to change bits

74002 Bulk

Goobay

18-piece precision screwdriver set

for precision screwing

- made from chrome vanadium steel (CrV) with increased deformation resistance
- ratchet function with switchover ring (right, fixed, left) for a smaller return angle
- stable tips ensure reliable torque transmission and quick fastening
- ergonomic handle provides a comfortable, firm grip when working
- extra non-slip due to rubberised shaft

74006 Retail Blister

Goobay

37-piece precision screwdriver set

for precision screwing

- made from chrome vanadium steel (CrV) with increased deformation resistance
- in a practical case to make changing bits easy
- stable tips ensure reliable torque transmission and quick fastening
- ergonomic handle provides a comfortable, firm grip when working
- extra non-slip due to rubberised shaft

74003 Retail Blister

Goobay

8-piece precision screwdriver box

for all conventional screwing and assembly work

- made from chrome vanadium steel (CrV) with increased deformation resistance
- magnetic tips ensure reliable torque transmission and quick fastening
- ergonomic handles provide a comfortable, firm grip when working
- non-slip due to rubberised shaft

73999 Bulk

Goobay

58-piece precision screwdriver case

for all conventional screwing and assembly work

- made from chrome vanadium steel (CrV) with increased deformation resistance
- magnetic tips ensure reliable torque transmission and quick fastening
- ergonomic handles provide a comfortable, firm grip when working
- non-slip due to rubberised shaft
- Delivered in a robust plastic case

74005 Sleeve
