Precisely capture complex contours

For ultra-precise results in record time

Available now: The contour gauge set of 2! The contour gauge with locking lever saves your customers valuable time and ensures an optimised workflow - the tedious creation of complex templates is a thing of the past. The set in the practical double pack is the perfect helper when it comes to laying laminate, parquet, tiles, vinyl, PVC or carpet. A cleverly integrated locking mechanism on the handle ensures that the slats remain reliably in position when transferring the contours to the desired material. Ultra-thin tracing pins ensure ultra-precise results.

Precise digital caliper for measurements up to 12 inches:

The versatile digital caliper can be used for both household and industrial applications to make reliable outside, depth and step measurements. Your customers can choose to set the display on the large display to either inches or millimetres, just as they are used to. In addition, the unit has a 5-minute timer that automatically turns off the display to maximise battery life.

Goobay

Contour Gauge, Set of 2

contour gauge duplicators with lock to fix the contour in place

- Precision profile gauge traces irregular object contours accurately and quickly with the help of the narrow 1.4 mm blades
- Practical locking mechanism on the handle prevents the blades from slipping when marking on the desired material
- The contour gauge profile tool eliminates the need to create complicated templates when laying laminate, parquet, tiles, vinyl, PVC or carpet.
- Integrated ruler with centimetre and inch indication ensures maximum accuracy for flooring and tiling work
- High measuring depth of the contour duplication gauge of 124 mm also allows measuring of large contours
- Dimensions of profile gauge 1: handle length 300 mm, block of blades 130 x 250 mm, dimensions of profile gauge 2: handle length 185 mm, block of blades 130 x 130 mm
- Stainless and durable thanks to robust ABS and PS material

Goobay

Digital Caliper 150 mm / 6 Inch

for measurements from 0 mm - 150 mm

- Digital caliper for precise external, internal, depth and step measurements of objects up to 150 mm
- High-quality measuring tool made of hardened, stainless steel with continuously adjustable slider and locking screw for comfortable working
- Large, 5-digit LC display, 12 x 38 mm with a resolution of 0.01 mm / 0.0005 inch
- AValues can be displayed in inches or millimetres, respectively
- Measuring accuracy according to DIN 862 (error limit: 30 µm), measuring speed: max. 1.5 m/s
- Zero key for resetting or defining a relative zero point, e.g. for measuring the difference in size of two objects
- With on/off button and an integrated timer that automatically switches off the display after 5 minutes to save battery power (LR44 button cell included)

Goobay Digital Luggage Scale

for a weight up to 40 kg

- Data lock function: Scale contains a short-time memory with signal tone, which makes it possible to read the measured value on the screen conveniently after the measuring process.
- Has a classic weighing function (TARA), an overload indicator and an automatic switch-off function to counteract unnoticed battery drainage.
- Easy attachment to the luggage and modern design. Thanks to its ergonomic shape, the scale fits perfectly in the hand.
- Compact design allows space-saving storage and makes this scale up to 40 kg the ideal travel accessory.
- The weight can be displayed either in kilograms (kg) or pounds (lbs).
- Illuminated LCD display enables measurements in poor lighting conditions.
- Also suitable as a cat scale to weigh cats in transport boxes.

Goobay Digital Air Pressure Gauge

including battery (1x CR2032 3 V Lithium)

- Regularly checking the air pressure increases road safety and helps to save fuel.
- Pressure gauge display units: PSI, Bar, KPA, Kg/cm
- Digital display allows accurate air pressure reading.
- Pressure gauge suitable for trucks, bicycles with car valves, motorbikes and cars
- Automatic switch-off after 30 seconds of inactivity
- Practical one-button operation

Fixpoint

Voltage Tester Set 140 mm and 190 mm

suitable for voltages between 200 V and 250 V

- 2 pieces 1-phase current testers with insulated shaft for alternating current, voltages from 200 volts to 250 volts
- Dimensions voltage tester I: 3.0 mm x 60 mm, with pocket clip
- Dimensions voltage tester II: 3.5 mm x 100 mm
- Screwdrivers are suitable for slotted screws.
- Perfect for use on the construction site due to robust and handy design
