## MODE 3 CHARGING CABLES – 3 CABLE VERSIONS

### CHARGING CABLE FOR USE AT PUBLIC AND HOME CHARGING STATIONS

Thanks to the standardised Type 2 connector, this is possible throughout Europe. The new, silver-plated contacts and the cable in proven LAPP quality ensure optimum and safe power transmission as well as longevity of the charging cable.

#### SMOOTH

##### THE CLASSIC CHARGING CABLE

#### SPIRAL

##### THE COMPACT OPTION

#### HELIX

##### FOR SIMPLE HANDLING

The patented LAPP HELIX is a quick-charge cable that rolls back up to automatically take its original shape after charging is complete. The mechanism saves users the time to roll up the cable and avoids soiling their hands - plus, the HELIX is quickly and easily stored back in the car.

#### THE HOUSING OF THE PLUG

consists of two components, allowing for separating and subsequently recycling the individual parts. The lightweight material and slim shape of the LAPP connector make it ideal for everyday use.

#### POWER CLASSES

- 20 A, 1-phase/3-phase
- 32 A, 1-phase/3-phase
- Charging power up to 22 kW depending on version
- IEC-certified
- Standard colours: black/orange

## MOBILITY WALLBOX HOME PRO

REFINED TECHNOLOGY MEETS ELEGANT DESIGN

The LAPP WALLBOX HOME PRO enables you to easily charge your electric or hybrid car at any time at home, in the garage, in a car port or in an underground car park. The Type 2 plug socket allows charging from the wall box at any time using a standard mode 3 charging cable. Approved in Germany, Austria and Switzerland.

### ADVANTAGES AT A GLANCE

- Appealing and simple design
- Robust construction
- For all standard vehicle types and classes
- Ready to use at any time with standard Mode 3 charging cable
- Load management enabled
- The charging process with the wall box runs automatically and is ended as soon as the battery is fully charged.

## MOBILITY DOCK

SMALL AND HANDY - IDEAL FOR ON THE ROAD

The LAPP MOBILITY DOCK is a practical solution for supplying electric vehicles with power even without a charging pole, a public or a home charging station. It is the perfect solution as an emergency charger. It allows for simple, mobile charging via a standard Type E/F mains socket and is ideal for on the road or in the garage at home.

POWER CONNECTOR

TORQUE SUPPORT

SOCKET FOR  
MODE 3 CHARGING  
CABLES

### ADVANTAGES AT A GLANCE

- Mobile charger for use with a standard Type E/F socket
- 100 % user-friendly and intuitive
- Compact design and ergonomic, easy handling
- Space-saving storage in the boot
- Charging process starts automatically when requested by the car
- Meets all relevant requirements of the IEC 62752 product standard
- Use with the Mode 3 charging cable already available in the car
- Gyro sensor in housing for position monitoring

## MOBILE CHARGING STATIONS

CHARGE ANYTIME AND ANYWHERE

No charging station in sight? The Mobile Charging Stations from LAPP offer you highly flexible charging options for your hybrid or electric vehicle on the road and at home – charge from either Type E/F mains sockets or CEE sockets. Enjoy e-mobility!

### MOBILE CHARGING STATIONS BASIC

FULL POWER WITH UP TO 22 KW

The LAPP Mode 2 charger provides simple, mobile charging via standard mains sockets and is ideal in the garage at home or on the road.

### MOBILE CHARGING STATION UNIVERSAL

FLEXIBLY ON THE MOVE WITH UP TO 22 KW

The LAPP Charging Station Universal charges your electric vehicle via a range of socket adapters. The connection option for the separately available LAPP mains adapters ensures maximum flexibility for mobile charging – preparing you for any situation and any socket.

MULTIPLE CONNECTION OPTIONS

## WALL BRACKET

FOR THE MOBILE CHARGING STATIONS BASIC AND UNIVERSAL

### WALL BRACKET

COST-EFFECTIVE ALTERNATIVE TO THE STANDARD WALL BOX

This simple, elegant solution turns your Mobile Charging Station into a miniature home charging point.

Installed in no time at the parking space of your electric car, it protects the control box and charging cable from dirt or damage.

## ACCESSORIES

BAGS FOR MOBILE CHARGING STATIONS AND CHARGING CABLES

### BAG FOR MOBILE CHARGING STATIONS

**BASIC AND UNIVERSAL - SAFELY STORED AWAY**

The perfect organiser for your Mobile Charging Station: Features such as the large main compartment with a zip, internal fastening loops and a 5 mm PE foam padding provide safe and tidy storage.

### BAG FOR MODE 3 CHARGING CABLES

**ROBUST CABLE ORGANISER**

The bag is the perfect accessory to easily store and transport the charging cable for your EV. As a pleasant side effect, dirt and moisture from the cable can no longer get into the vehicle or into your home as they remain in the washable bag.

## ACCESSORIES

BAGS FOR THE MOBILITY DOCK CHARGING STATION

### NEOPRENE COVER

**LIGHTWEIGHT, COMPACT, MAXIMUM PROTECTION**

Fitted precisely to the LAPP MOBILITY DOCK: the high-quality, robust neoprene bag for secure storing and transporting.

Excellent protection for the award-winning product.

### HARD CASE

**HIGH-QUALITY, SHOCK-RESISTANT BAG MADE OF EVA**

Tailor-made: The foam inlay fits the LAPP MOBILITY DOCK perfectly and offers the best protection.

# GOOBAY ACCESSORIES

PREMIUM ESSENTIALS FOR YOUR EV

DOCKING STATION WITH  
HOOK-AND-LOOP FASTENER

## WALL MOUNTS

SPACE-SAVING STORAGE BETWEEN  
CHARGING CYCLES

Simply mounted and securely fastened, the fixture allows you to easily store your charging cable on the wall. It keeps the cable safe and protects it from dirt and damage, extending the service life of your charging cable.

## CABLE REEL

FOR STRESS-FREE ROLLING UP  
THE CHARGING CABLE

A unique solution for storing the charging cable of your EV. The reel helps you to keep your hands, clothes and the boot clean - while putting an end to cable tangles.
