

## Maximum control and flexibility

### When quality is more than just an option

The new, black LED magnifier lamps from Goobay are not only stylish but with their clamps, they are also highly functional – an indispensable tool that takes precision work to a new level.

The 10 W magnifier lamp in particular offers a nifty combination of flexibility and performance: The separate touch panels to adjust brightness and light colour in 6 levels (3500 - 6500 K) give you full lighting control. The loupe head, tilting up to 100° and swivelling 250°, offers flexibility at any angle, while the generous 127 mm loupe with LEDs arranged in a ring shape provides a clear view.

operating voltage	20 V (DC)
dimensions	125 x 370 x 115 mm

## LED Magnifying Lamp with Clamp, 6 W

480 lm, 100 mm glass lens, 1.75x magnification, 3 dioptries

- 30 long-life, daylight-balanced SMD LEDs of the magnifier lamp display objects in neutral colours.
- 100 mm-diameter lens of the magnifying glass lamp is made of high-quality glass with 3 dioptries and 1.75x magnification
- Thanks to the quick-release, you can easily and toolfree replace the crystal glass lens of the magnifier with light with 3 dioptries and 1.75x magnification (incl. protective cap).
- Flexible gooseneck for individual alignment of the magnifying glass lamp
- The multi-purpose craft magnifier is useful e.g. in the beauty sector, as a reading aid or for precision work such as embroidery and soldering.
- Ideally suitable as a table magnifying glass, a craft light, a desk, drawing or reading lamp
- Thanks to the soft padding of the clamp, you can clip on the magnifying lamp with light securely and without damaging the surface.

## LED Magnifying Lamp with Base, 6 W

450 lm, 100 mm glass lens, 1.75x magnification, 3 dioptries

- The magnifier lamp with a 100 mm diameter creates a shadow-free, daylight-balanced LED ring illumination.
- Magnifying glass lamp with standard glass lens (incl. protective cap) with 3 dioptries and 1.75x magnification, not replaceable
- Articulated arm of the hands-free magnifier with light with integrated cable guide provides a flexible 330 mm working radius.
- Lens head of the lighted magnifying glass can be tilted by up to 90°, non-slip table stand provides stable support.
- The multi-purpose craft magnifier is useful e.g. in the beauty sector, as a reading aid or for precision work such as embroidery and soldering.
- Ideally suitable as a table magnifying glass, a craft light, a desk, drawing or reading lamp
- The new generation of SMD LEDs offers improved illumination, with the diffusing plate providing perfect light distribution
