

Vintage charm meets modern technology

More light, lower energy costs

The new filament LED range from Goobay combines nostalgia with modern technology, offering an eco-friendly solution for those who appreciate retro design but still value energy efficiency. With an impressive illumination range of 300° and a pure and natural colour rendering, the long-lasting luminaires envelop any room in warm light. The perfect replacement for traditional incandescent lamps that makes no compromise.

Goobay

Filament LED Bulb, 4 W

base E27, warm white, not dimmable

- Goobay LED light bulb with 300° beam angle and E27 base
- Warm white light with 2700 K
- Versatile and suitable as an energy-saving replacement for halogen lamps and conventional light bulbs
- The LED lamp produces light similar to an incandescent light bulb
- The LED lamp produces true, natural colours thanks to 80 Ra
- The crystal clear E27 LED bulb achieves a very long service life
- The lamp does not get hot and immediately lights up when switched on
