

Market innovation in Europe

LAN performance via USB

A revolution in network technology: Goobay Ethernet cables for USB devices (USB-C™ 3.1, USB-A 3.0) without an RJ45 port! A technological breakthrough that improves everyday life for all Internet users. WLAN often reaches its limits in offices: security risks, unstable connections, limited speed. The Goobay converter cable with a smart chip in the USB plug eliminates bulky adapters, maintains LAN performance and connects modern devices with the Internet via a single cable.

Cutting-edge technology: Not only are the cables compatible with USB-A but they are also carefully designed for the upcoming USB-C™ standardisation. As a result, they are suitable for virtually all internet-enabled devices.

Plug & Play

The nifty smart chip built into the USB plug replaces the previously required, complicated RJ45-to-USB-C™ or RJ45-to-USB-A adapter.

Designed to Resist

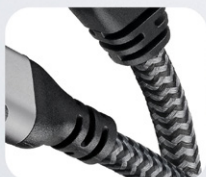

created for generations

Sturdy metal housing
high-quality, robust & pleasant to the touch

Flexible textile cable
highly durable due to braided cable sheath

Bend protection
provides exceptional cable durability

Broad Compatibility

perfect with:

Operating systems:
Windows, macOS,
Linux, ChromeOS

PC, laptop
of all current
manufacturers

Gaming
PC, games console

Modem, router

Stable LAN Connection

more reliable than WLAN –
interference-free & fast via USB-C™

WIRED LAN

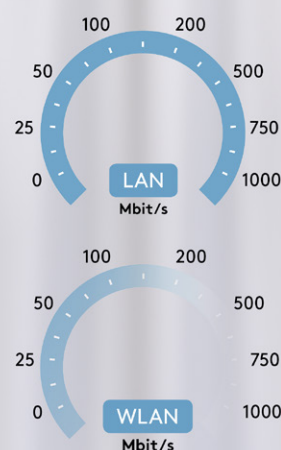

WLAN

Safe & Lightning-Fast

the new era of Internet connectivity

USB-C™ 3.1 TO RJ45 ETHERNET CABLE

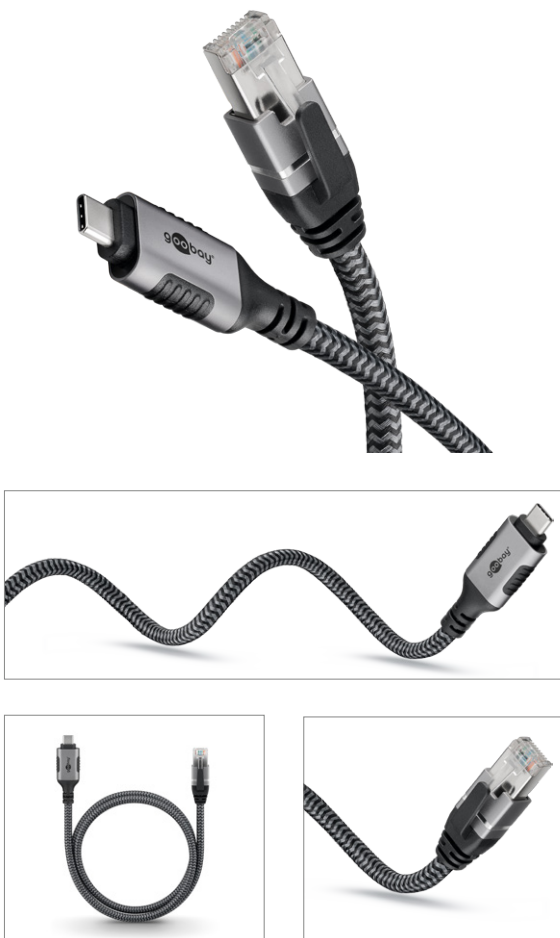

THE TECHNOLOGY UPGRADE TO SIMPLIFY YOUR LIFE:

OUR INNOVATIVE ADAPTER CABLE IS THE COMPACT ETHERNET SOLUTION
FOR ALL USB-C™ DEVICES WITHOUT THEIR OWN RJ45 PORT.

WITH THE CABLE, ETHERNET IS IMMEDIATELY AVAILABLE WITHOUT ANY EXTRA DRIVERS.

AN ADDED BONUS:

THE USB 3.1 CABLE IS COMPATIBLE WITH APPLE'S THUNDERBOLT™ 3 PORT.

Goobay

USB-C™ 3.1 to RJ45 Ethernet Cable

connects the router, modem or network switch to the USB-C™ port of a laptop, tablet or smartphone

- The LAN cable provides a stable, wired internet connection to USB-C™ devices without their own network port
- With CAT 6, the cable achieves a transmission rate of up to 1 Gbit/s
- The CAT 6 cable is effectively protected against interference thanks to its foil shielding (FTP)
- The braided, durable textile jacket of the USB cable has a pleasant feel and is gentle on sensitive surfaces
- High-quality, robust metal plugs with bend protection ensure an especially long service life
- The USB-C™ connector is compatible with notebooks from popular brands such as Lenovo, HP or Dell as well as with Windows, macOS and Android, and with most Thunderbolt™ 3 devices such as Apple MacBook or iPad
- Please note: The internet cable is not suitable as a rollover cable for game consoles
