

## The performance artists

### Electrifying power, irresistible design

The new power banks from Goobay come with a real life hack: Thanks to the integrated charging cable, the power bank is ready for use anywhere – no longer forgotten cables, no longer cable tangles in your bag! With its special design, the power bank is a fashion must-have: The integrated textile charging cable transforms the power bank from a pure energy booster into a stylish accessory. Simply attached to the bag or rucksack with the handy cable strap, the power bank stays safely in place, turning into a compelling eye-catcher at the same time. Available in three versions for small, medium and large power needs.

## Power Bank with Built-In USB-C™ Cable

compact travel essential with Power Delivery and Quick Charge for fast charging

- Always at hand: The short textile charging cable can remain in the casing, making the power bank a reliable companion for all USB-C™ devices when on the go
- The cable clicks into the side of the casing, creating a handy carrying strap that ensures a secure hold in the hand and in suspension loops of backpacks or bags
- Power Delivery (USB-C™) and Quick Charge (USB-A) enable up to 4x faster charging of the portable charger and connected devices compared to conventional power banks
- The LED display indicates the charge status of the USB power bank in the form of an illuminated strip
- The power bank recharges via the included USB-C™ cable (13 cm) using the combined USB-C™ input/output, e.g. by connecting to a USB charger or laptop
- Thanks to the universal USB ports suitable for devices from numerous manufacturers, e.g. Samsung Galaxy, Xiaomi, Lenovo or Huawei as well as for Apple iPhone or iPad with adapter cable

## Magnetic Wireless Power Bank

20 W, attaches magnetically to the back of the phone, ideal for charging and telephoning at the same time

- Compatible with MagSafe-enabled devices such as the Apple iPhone, the Apple AirPods or the Samsung Galaxy S24, S23 and S22
- Super-slim power bank for the inductive charging of smartphones, smartwatches or headphones with up to 15 W
- With the magnetic ring, the power bank attaches securely, charging the mobile phone in your pocket on the go or while in use - without covering the camera
- For full flexibility, the portable charger is also equipped with 1x USB-C™ output (Power Delivery) for wired fast charging of smart devices with up to 20 W
- Completely charged, the battery pack fully recharges a smartphone 1x
- The portable charger recharges via the combined USB-C™ input/output (incl. 0.3 m charging cable USB-A to USB-C™)
- Handy LEDs indicate the charging status of the portable charger

## Outdoor Solar Power Bank 20,000 mAh with Power Delivery

18 W, robust travel essential with Power Delivery and Quick Charge for fast charging mode

- Robust solar power bank with non-slip surface – perfect for safely charging your smartphone or sat nav during outdoor use
- The integrated solar panel provides hybrid charging support and optimised capacity of the power bank
- The power pack for energy-intensive applications charges up to 3x devices in parallel, e.g. smartphone, tablet and headphones
- Power Delivery (USB-C™) and Quick Charge (USB-A) enable up to 4x faster charging of the portable charger and connected devices compared to conventional power banks
- As a special bonus, the USB power bank also has a torch with two LEDs, making it the ideal outdoor equipment for camping
- The status display with six LEDs reliably indicates the charge status of the external battery
- The power bank recharges via the combined USB-C™ input/output or Micro-USB, e.g. by connecting to a USB charger or laptop (incl. 0.3 m charging cable USB-A to USB-C™)
