High Speed HDMI™ Flat Cable with Ethernet

8K/60Hz

8K/60 Hz

1.5 – 3 m

The flat design of the cable and connectors facilitates routing in cable ducts or in confined spaces

The cable is suitable for high-resolution image transmission with Ultra HD at up to 8K @ 60 Hz (backward compatible) and a data rate of up to 48 Gbit/s

Ideally suited for audio and video transmission between TV/monitor and projectors, game consoles (e.g. PlayStation, Xbox) or streaming receivers (e.g. Amazon Fire TV, Apple TV)

The integrated Ethernet channel (HEC) connects any HDMI™ device to devices in the wired network without a separate internet cable

The CEC function (Consumer Electronics Control) creates flexible operability via only one remote control, e.g. for switching on several paired HDMI™ devices with a single press of a button

Supports 3D and HDR (High Dynamic Range) for excellent, high-contrast picture quality as well as the HDCP 2.2 encryption system

Supports advanced audio features such as eARC (Enhanced Audio Return Channel) and ARC (Audio Return Channel) for easy digital transmission from the TV to a soundbar or hi-fi system

Packaging: Cable Tag

USB-C™ PD GaN Fast Charger Nano 20 W

1x USB-C™ port (Power Delivery)

20 W

1x USB-C™

The super-compact and lightweight design fits in any bag and makes the USB-C™ power supply the handy companion when travelling

Semiconductors with GaN technology allow for faster, more efficient charging and a lighter, more compact design compared to conventional chargers

With Power Delivery, the USB charger comes with a particularly safe and dynamic charging method that identifies the optimal output power for the connected device

The integrated protection electronics of the USB-C™ charger protects connected devices against overcurrent, overcharging and overheating
