LEISURE & HOUSEHOLD

Dust busters instead of dust bunnies.

The cordless vacuum cleaner is always on hand to remove dust and dirt. With brush and crevice nozzles, it reaches the smallest corners and removes even stubborn pet hair. With its super-compact design, the small vacuum cleaner is perfect for the office, in the car and at home.

The detective among tools.

Sees what the human eye cannot see. The multi-talented tool in an ultra-compact format helps measure moisture and temperature in logs, construction timber and other building materials. Also detects moisture in walls and floors, e.g. due to water leaks.

-  Moisture, temperature
-  LCD Display
-  LED indicators
-  For various materials

77832

Moisture Meter

TEMPERATURE

°C/°F

Localise, analyse, finalise.

The stud finder detects wooden beams, pipes and metal tubes in walls, floors and ceilings – extremely handy for hanging pictures, installing lamps, screwing or nailing. You will always find the right spot and avoid the wrong one. Simply place the detector on the surface, calibrate automatically and scan.
