Cordless Mini Vacuum Cleaner Advanced

brushless motor, with 80 W and 7 nozzles for cleaning office accessories, car interiors and hard-to-reach corners

- Handy design: The cordless vacuum cleaner reliably cleans desk accessories such as keyboards or hard-to-reach places, e.g. sofa corners – dust and animal hair don't stand a chance
- Clean and dust-free in your car: Perfect for cleaning car interiors, e.g. dashboard, upholstery, glove compartment or centre console
- Handheld vacuum cleaner for all challenges: With 3 power settings, the car vacuum cleaner cleans sensitive surfaces and stubborn dirt and can also be used for vacuum bags
- With dust blower function via the opening on the underside: Handy for cleaning keyboards or as an air pump for air mattresses and pool accessories
- Includes 3 brushes for cleaning and 7 nozzles for flexible use: 2 crevice nozzles, 1 round nozzle, 1 round brush, 1 flat brush, 2 conical nozzles for the air duster function
- Bagless and effective: When the dust container is full, simply twist to quickly open and empty the container (HEPA filter and stainless steel filter washable)
- Includes USB-C™ to USB-A charging cable, cable length 80 cm (power supply not included), 3 LEDs for reliable battery status indication

Air Duster Advanced

cleaning set incl. 8 nozzles, 110,000 rpm, 100 W, cordless

- Electric air blower for removing dust from keyboards, PC cases, car interiors and other hard-to-reach places
- Highly versatile: The dust cleaner removes animal hair, wood dust from work areas, leaves from cars and can even be used to inflate air mattresses or pool accessories
- Includes 7 nozzles, perfectly tailored to different applications, e.g. brush nozzles, crevice nozzles and spot nozzles
- Powerful and flexible: With 3 settings for fine and coarse dust and dirt particles, powerful with 100 W at the highest setting (controlled via the button)
- Balanced centre of gravity and handy format: The blower fits comfortably in the hand and its compact format makes it perfect for travelling, holidays or camping
- Sustainable on the go: With its rechargeable battery, the keyboard cleaner is significantly more sustainable than compressed air spray cans and therefore especially handy for on the go
- 4 LEDs indicate the charge status of the Li-ion battery, incl. USB-C™ to USB-A charging cable, cable length 80 cm (power supply not included)

Cordless Compressor

portable air pump with max. 10 bar/150 psi for cars, bicycles, motorcycles or balls

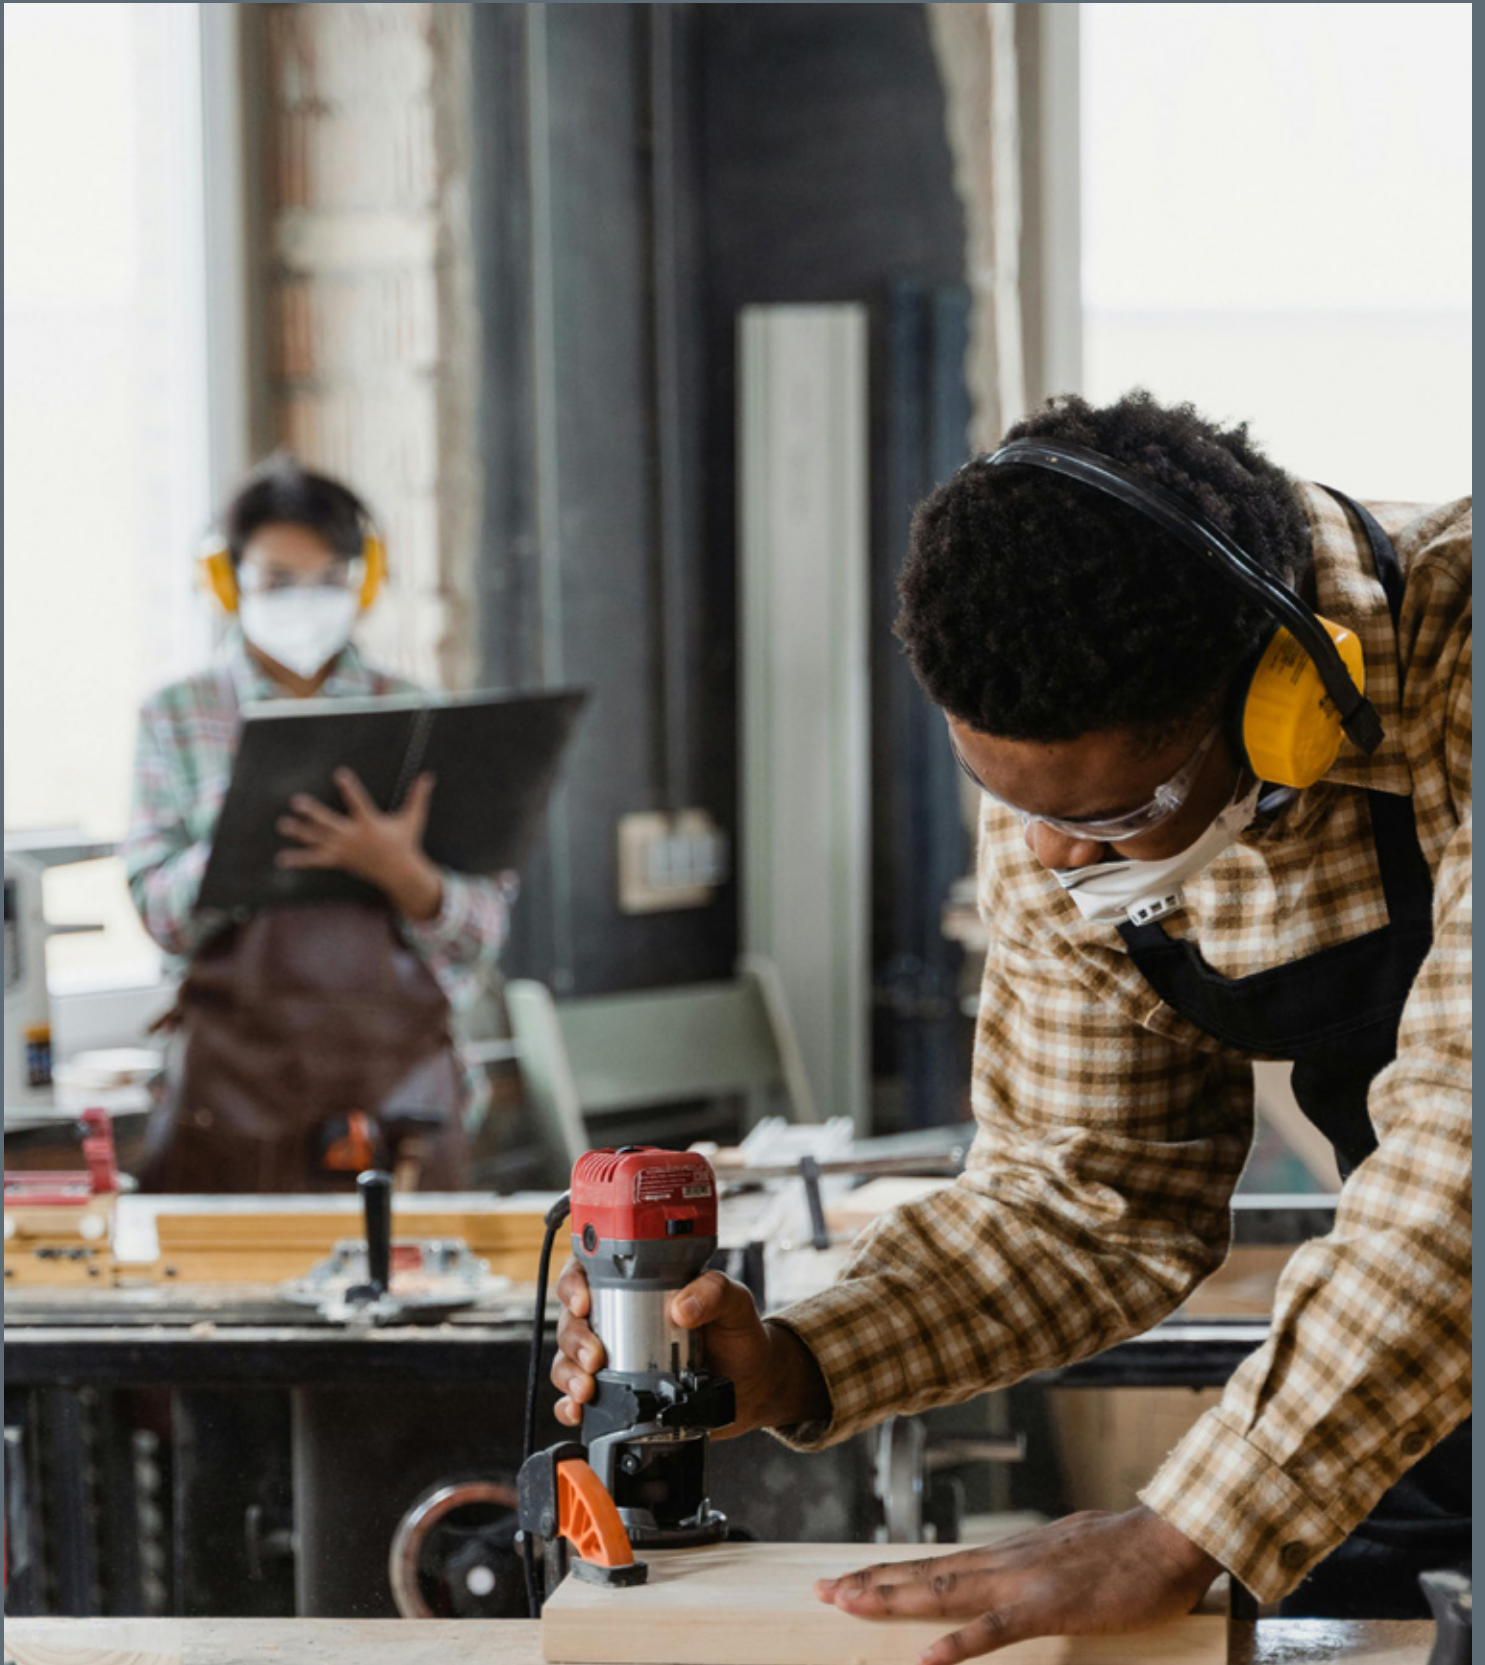

- Handy design: Compact tyre pressure gauge for at home and on the go, perfect for inflating car tyres, motorcycle tyres, bicycle tyres and balls for many sports
- Full convenience: Easy to use with five buttons and a large LED display with battery status indicator, air pressure gauge and target pressure value
- Super-flexible air compressor: With five different modes (car, motorcycle, bicycle, ball, custom setting) and a compressed air display in either psi or bar
- 2 LEDs, 3 light modes: Two LEDs on the top provide bright light, with a choice of permanent, steady flashing or Morse code modes
- Multifunctional: The compressed air hose is permanently installed in the device and compatible with the four included adapters for cars, bicycles (Dunlop), balls, air mattresses, etc.
- Perfect as a tyre inflator on the go: The four valve adapters are stored in a practical compartment on the back of the device
- Reliable and mobile: With practical hand strap and USB-C™ connection for charging the Li-ion battery for cordless operation and full mobility of the car tyre pump

Hot Air Gun Advanced

with two temperature settings and four different nozzles

- Versatile heat gun, e.g. for attaching heat-shrink tubing, defrosting metal objects, shaping plastic or metal building materials
- The hot air blower has two temperature settings tailored to different applications: Low (200 °C) and high (500 °C)
- Both temperature settings deliver a steady air flow of 450 l/min.
- Four nozzles included: 1x flat spray nozzle for removing stickers or paint stripping, 1x shovel-shaped reflector nozzle for soft soldering, 2x narrow reduction nozzles for desoldering or edge gluing
- Without attachment, suitable for drying small damp spots on walls, smoothing plastic surfaces and repairing minor scratches in plastic, among other things
- Power supply via the integrated mains cable with 230 V/max. 7 A (type C, CEE 7/17), cable length 1.3 m

Goobay tools

Hot Air Gun Superior

with two continuously adjustable temperature intervals and four different nozzles

- Versatile heat gun, e.g. for attaching heat-shrink tubing, defrosting metal objects, shaping plastic or metal building materials
- The hot air blower has two temperature ranges (low 50-350 °C and high 200-500 °C), each of which is controlled by the setting wheel on the rear.
- Both temperature settings provide an even air flow of 450 l/min.
- Four nozzles included: 1x flat spray nozzle for removing stickers or paint stripping, 1x shovel-shaped reflector nozzle for soft soldering, 2x narrow reduction nozzles for desoldering or edge gluing
- Without attachment, suitable for drying small damp spots on walls, smoothing plastic surfaces and repairing minor scratches in plastic, among other things
- Power supply via the integrated mains cable with 230 V/max. 7 A (type C, CEE 7/17), cable length 1.3 m

Moisture Meter

measures the moisture content and temperature in firewood, concrete and other materials

- Ultra-compact moisture meter with 2 modes for precise moisture detection in wood or cardboard (6-60 %) and solid materials such as concrete or plaster (0.2-2.9 %)
- The practical LEDs in red, yellow and green indicate how critical the respective moisture level is
- Quick and clear: The wood moisture meter displays the measured values on the easy-to-read LCD display in a flash, without long waiting times
- With the hold function, the display shows the measured value permanently, and the damp meter switches off automatically after 15 seconds of inactivity
- The temperature can be set to either Celsius or Fahrenheit
- With practical hand strap and protective cap to protect the needles and the user, e.g. when transporting in a jacket or trouser pocket
- Includes 4x LR44 button cells, weight: 41 g, dimensions: 85 x 46 x 16 mm

Multidetector

finds wooden beams and live wires in drywall

- Compact cable detector, metal detector and wall scanner in one for the reliable detection of wooden and metal beams, power lines and substructures in plaster walls
- 3 modes: The stud detector has standard, high-sensitivity and electric current modes, tailored to different materials and applications
- 1 button, many functions: All functions, e.g. calibration and mode change, are easy to operate via a single button on the live wire detector
- Wire detector with easy-to-read LCD display and audio feedback upon detection
- Depth of detection up to 5 cm, depending on the surface material
- Easy to mark: The critical points on the wall can be easily marked with a pencil using the central notch on the top of the stud sensor
- Battery-operated via a 9 V battery (included)

Laser Distance Meter

30 m range, suitable for length, area and volume measurement

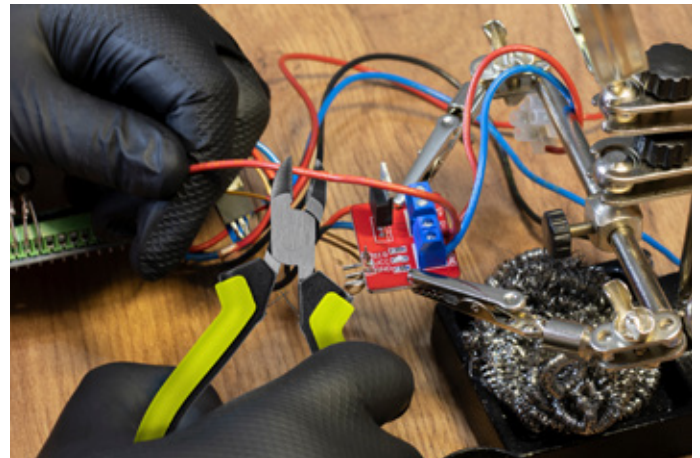

- Ultra-compact distance meter for precisely measuring room, floor and wall areas during renovation work, e.g. when painting or laying tiles, laminate or parquet flooring
- With volume measurement for calculating available storage space or determining the amount of building materials required, e.g. when laying screed
- The continuous measurement function allows you to move around flexibly with the laser measure device, while the Pythagoras measurement determines height, length and hypotenuse
- The laser pointer can be set to metres, inches or feet and measures accurately to a tenth of a millimetre, up to 5,000 measurements with a fully charged battery
- High-quality and robust aluminium housing for particularly demanding environments such as workshops or construction sites
- With audio feedback when the button is pressed and automatic switch-off to save battery power (after 1 min.)
- Includes 30 cm charging cable (USB-C™ to USB-A) and hand strap for comfortable handling of the laser level

Screwdriver Set with 24-Piece Precision Bit Set

tool set made of S2 steel for precision screwdriving, assembly and DIY work

- High-quality screwdriver set made of coated aluminium in a metal case with handy pop-up mechanism
- Perfect for precision work on electronics such as laptops, PCs, smartphones or drones, as a watchmaker's tool or for other precision engineering work
- Precision bits with a diameter of 4 mm and a length of 28 mm, with type identification on the bit and pictorial representation in the case for a better overview
- Magnetic bit holder made of high-quality metal, 12.7 cm long
- 1x 2.5 mm adapter, 8x 6-point star (T, TH), 1x triangular (2.3), 6x cross-recess (PH, P), 4x flat, 1x spanner (2.6), 2x tri-wing (0.6, 2.0), 1x wood drill bit (2.5)
- Safely stored, easy to remove: the bits are stored in magnetised recesses for a secure hold in the box

77836 Retail Box RRP 10.99 €

Precision Screwdriver Set, 7-Piece

tool set for precision screwdriving, assembly and DIY work

- Practical screwdriver set with magnetic tips and ergonomic design for comfortable working
- Perfect for precision work on electronics such as laptops, PCs, smartphones or drones, as a watchmaker's tool or for other precision engineering work
- With movable swivel cap to support the hand for lightning-fast screwdriving
- Total length of screwdriver 16.5 cm, screw head drives: 2x flat (2 mm, 3 mm), 3x cross-recess (PH0, PH1), 3x 6-point star (T6, T8, T10)
- Made from hardened chrome-vanadium steel for extra durability of the screwdrivers
- The transparent lid of the box ensures a clear overview
- Thanks to their practical, compact format, the screwdrivers are easy to store in any toolbox and are perfect for mobile use

Screwdriver Set with 26-Piece Bit Set

tool set made of S2 steel for precision screwdriving, assembly and DIY work

- Practical screwdriver set with bits (Ø 4 mm) and screwdriver with ratchet function for repairs, precision engineering work or as a watchmaker's tool
- Well thought-out design: The slim screwdriver with rubberised handle and ratchet function fits comfortably in the hand and ensures the necessary precision when working on smartphones, laptops, PCs, drones, etc.
- Includes 1x bit holder extension (length 75 mm), 6x sockets (2.5-5 mm, CRV) and 20 bits made of shock-resistant S2 steel: 4x flat slot, 6x cross-recess (PH, PZ), 4x hexagon (H), 6x 6-point star (T)
- Precision bits with a diameter of 4 mm and a length of 28 mm, with type identification on the bit and angled slots in the box for a better overview
- Rubberised feet and clever design: The soft feet protect sensitive surfaces. Thanks to its shape, the case can be stacked with boxes from the same series, which is extremely practical for storage in toolboxes
- The practical, compact format makes the bit set easy to store in any toolbox and perfect for mobile use

CRAFTING

Goobay tools

Hot Glue Gun Advanced, 20 W, incl. 50 Glue Sticks

for hot glue sticks with a diameter of 7 mm

- Glues materials quickly and reliably together: Compact hot glue gun for all gluing jobs when crafting, decorating or repairing
- Easy dosing and precise application: Due to the mechanical feed of the glue gun, you can apply the liquid glue evenly and in measured doses (10 g/min)
- Versatile: The hot glue gun sticks are suitable for numerous materials, e.g. cardboard, ceramics, wood, metal, leather, acrylic and glass
- Convenient fold-out stand: The heated hot glue gun stands firmly and securely on the fold-out stand, preventing burn marks on tables, work mats or other surfaces
- Reduced risk of burns: Thanks to the heat protection cap, the heated metal nozzle protrudes only minimally from the gun to ensure increased safety during use
- Power supply via mains cable with Euro-plug, voltage range 110-240 V (AC), cable length 1 m

Hot Glue Sticks 7 mm

replacement sticks for standard glue guns with 7 mm opening diameter

- Glue sticks for all hot glue guns with a 7 mm opening, perfect for model making, all craft and DIY projects, decorating or repairing
- Versatile: The glue gun sticks are suitable for numerous materials, e.g. cardboard, ceramics, wood, metal, leather, acrylic and glass
- For almost invisible gluing: After drying, the glue is transparent and therefore visually discreet
- Excellent flow properties after melting for easy handling and flexible working
- The hot melt adhesive is quick-drying and therefore particularly convenient for bonding loose or small parts
- Dimensions per glue stick (Ø x L): 7 mm x 100 mm
