Wireless Power Bank for Apple Watch 2,500 mAh

5 W, compact travel essential with wireless charging technology

Wireless

2,500 mAh

5 W

Easy wireless and inductive charging: MagSafe-enabled and therefore compatible with all Apple Watch models and Apple AirPods

Independent on the go: The mini power bank charges wherever there are no cables or mains sockets available, e.g. on the way to work, on the train or on hikes in the countryside

Ideal output for the Apple Watch: 2,500 mAh for up to 8x charging (depending on model) – wireless with up to 2.5 W and extra fast via cable with up to 5 W

The easy-to-read digital LED display shows the charge status of the external battery in per cent

Safe on/off switch and automatic switch-off after 10 seconds

Handy carabiner hook: Hooks securely into your bag, backpack or key ring for safe storage during transport

The power bank is recharged via the combined USB-C™ input/output (USB-C™ to USB-A charging cable included, 0.3 m)

				Packaging: Retail Box

Ultra-Flexible CAT 6A Patch Cable U/UTP

copper conductor (CU), halogen-free TPE cable sheath (LSZH)

CAT 6A

U/UTP

CU

LSZH-TPE

0.25–30.00 m

The new flexibility:
CAT cable with ultra-flexible TPE sheath for easy handling and especially effective LSZH protection

Simply connected:
Unshielded LAN cable with 2x RJ45 plugs for connecting network components at home, in the office, in the server cabinet, etc.

Fast, faster, CAT 6A:
As a CAT 6A network cable, suitable for 10 Gigabit Ethernet 10BASE-T, 100BASE-TX, 1000BASE-T, 10/100/1000/10000 Mbit/s

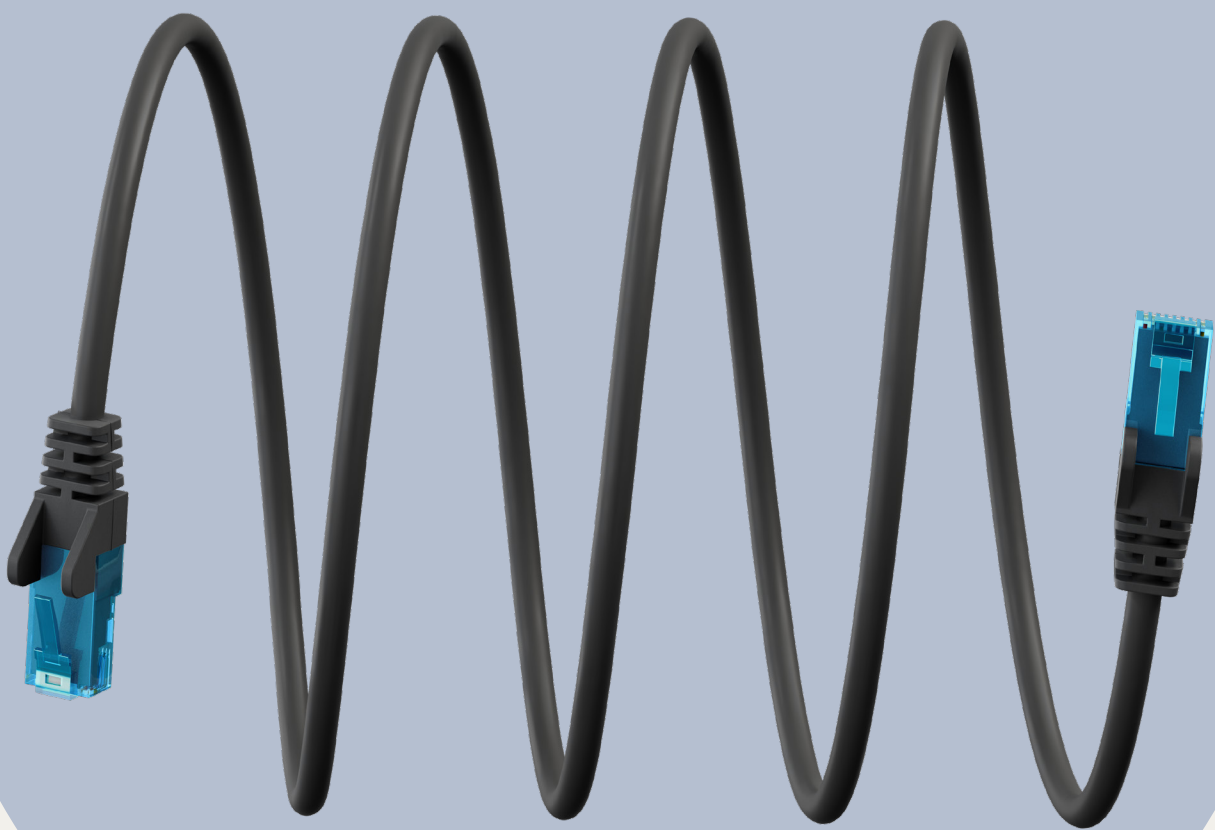

Top quality:
High-quality copper conductor (CU) and 3µ gold-plated contact surfaces for a high-performance connection, as well as length indication on the overmoulded slimline bend protection sleeve

Securely locked in place:
The latch protection on the RJ45 connector prevents the latch from snagging or breaking off

Always a favourite with LSZH:
Compliant with applicable standards IEC 61034 (low smoke) and IEC 60754-2 (halogen-free)

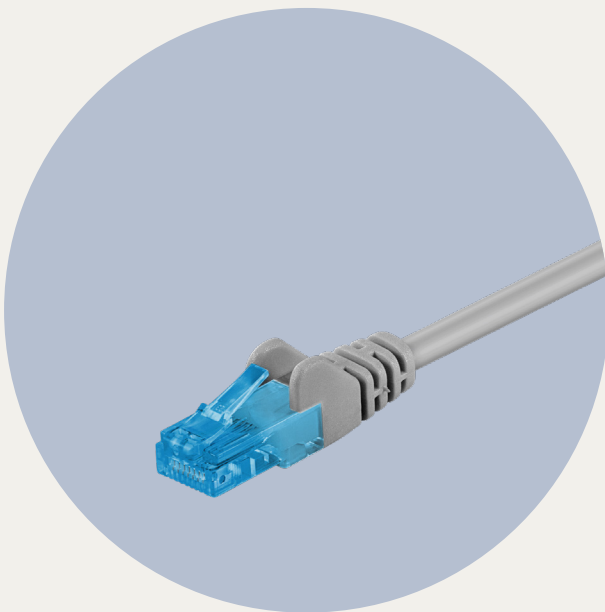

The internet cable is suitable for Power over Ethernet (PoE, PoE+)

The new flexibility:

CAT cable with ultra-flexible TPE sheath for easy handling and especially effective LSZH protection

Simply connected:

Double-shielded LAN cable with 2x RJ45 plugs for connecting network components at home, in the office, in the server cabinet, etc.

Fast, faster, CAT 6A:

As a CAT 6A network cable, suitable for 10 Gigabit Ethernet 10BASE-T, 100BASE-TX, 1000BASE-T, 10/100/1000/10000 Mbit/s

S/FTP overall shielding:

Aluminium foil shielding around the individual wire pairs (PiMF) and aluminium braided shielding under the cable sheath

Top quality:

High-quality copper conductor (CU) and 3µ gold-plated contact surfaces for a high-performance connection, as well as length indication on the overmoulded slimline bend protection sleeve

Always a favourite with LSZH:

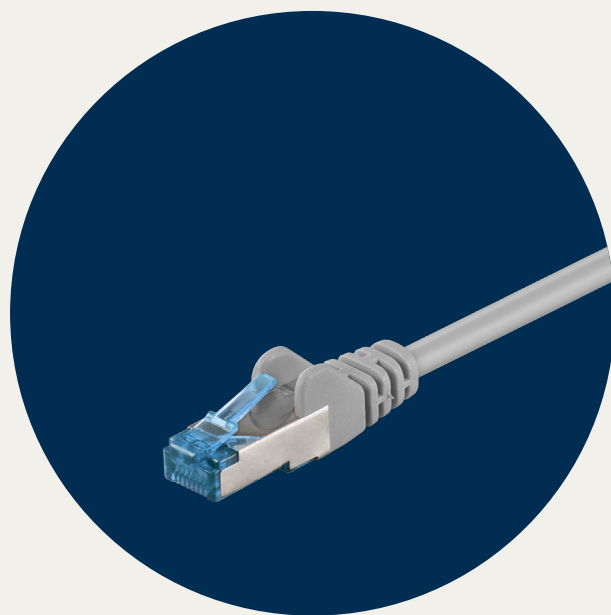

Compliant with the applicable standards IEC 60332-1 (flame retardant), IEC 61034 (low smoke) and IEC 60754-2 (halogen-free)

The internet cable is suitable for Power over Ethernet (PoE, PoE+)

Digital Soldering Station 70 W

160–480 °C, heats up to soldering temperature in just 8 seconds and to maximum temperature in 11 seconds

70 W

Max. 480 °C

LED display

The soldering station is ideal for precision work in electronics and model making, as well as for pyrography

Heats up in a flash: The soldering iron reaches its maximum temperature of 480 °C in approx. 11 seconds, which is significantly faster than conventional soldering stations

Precise and handy: The up and down buttons allow you to control the soldering temperature in precise 1 °C increments

Convenient: With the CH button, you can save an individual temperature to which the station automatically heats up when switched on

Includes soldering iron with union nut for quick soldering tip replacement, cable length to soldering station and cable length power cord with type E/F plug: 1.15 m each

Fully equipped: With large, easy-to-read LED display, soldering sponge, cleaning brush and solder holder

The impact-resistant housing ensures exceptional durability

				Packaging: Retail Box					
Availability	Item no.	EAN	RRP	Pcs./master carton	Pcs./PU	Length	Width	Height	Weight

Soldering Set Starter, 12 Pcs.

with soldering iron, 5x additional soldering tips, soldering iron holder, desoldering pump, wire stripper, tweezers, soldering sponge and solder

12 pcs.

Compact tool case (25 x 15 x 4 cm) for home and travel – ideal for precision work in electronics and model making, as well as for pyrography

The soldering iron with 5 heat settings is perfect for small repairs and soft soldering at 100–500 °C (25–60 W) on circuit boards, household appliances and electronics

1x solder \varnothing 1.0 mm 10 g (99.3 % tin, 0.7 % copper), 1x wire stripper for cables, 1x soldering iron holder with sponge for safe storage of the hot soldering iron

1x light metal desoldering pump for removing and sucking up excess solder, flux and soft solder – easy to operate with one hand

1x antistatic tweezers for safe soldering on PCBs and electronics – without the risk of static electricity (length: 12.2 cm)

Soldering iron with union nut for quick soldering tip replacement, incl. soldering tip (conical) and 5x additional soldering tips: 2x conical, 2x 45° bevelled, 1x blade

The soldering iron is designed for mains operation with 220-240 V (AC), cable length 1.20 m, safety plug (type E/F)

Solder Lead-Free, Ø 0.8 mm

content: 0.3 % silver, 0.7 % copper, 99 % tin,
content of flux core: 2.5 %, melting point 217 °C

Lead-free

Ø 0.8 mm

217 °C

Flux-filled solder wire with a diameter of 0.8 mm, ideal e.g. for soldering electronics

Simple, homogeneous wetting of the solder joint thanks to the rosin flux core

No-clean solution with continuous flux cores that does not require cleaning the solder joint after use

Reduced spattering for increased user safety and protection of the workpiece

Halogen-free and with low smoke emission

Perfect for soft soldering at low temperatures up to 450 °C in the automated and hand soldering are

Packaging: Bulk

Soldering Tools, 6 Pcs.

special tools for soldering work on electronics and circuit boards

6 pcs.

Handy, double-sided soldering kit for working on circuit boards, cleaning small metal parts, precision work such as jewellery repair, model making, etc.

2x brushes for removing loose parts, 1x 3 mm screwdriver, 1x cutting tool for PCBs and stripping, 1x fork for gripping and bending wires

2x chip holders, 1x reamer with round cross-section for cleaning circuit board holes, 1x lever and 1x hook for prising out circuit board parts, 2x pointed scrapers for removing corrosion

The circuit board cleaners are coated and non-magnetic: This prevents metal parts from accidentally sticking to the tool, makes placement easier and prevents damage to electronic chips or coils

Handles with hexagonal cross-section ensure improved grip of the soldering aids without slipping or twisting during work

Dimensions: Each tool is approx. 18.2 cm long

				Packaging: Retail Box

Magnetic Circuit Board Holders and Metal Plate

4x magnets (15 x 47 mm) for a stable hold of the circuit board during soldering work

4 pcs. Magnetic

Both hands free for soldering: Circuit board holder with side notches that hold the boards securely and precisely during soldering work

The extremely strong magnets ensure a completely secure hold on metal surfaces without the workpiece slipping or shifting

Particularly suitable as a soldering aid for small and light circuit boards that are otherwise difficult to secure

Suitable for circuit board thicknesses up to 4 mm: The individual magnets can be readjusted with the integrated screw in each notch

With sturdy metal plate that is heavy enough to prevent it from slipping during soldering work (dimensions: 210 x 135 x 10 mm)

Secure hold even in case of strong impact: The screws of the magnetic feet can be inserted into the rails of the plate with keyhole slots, so that the magnets cannot slip

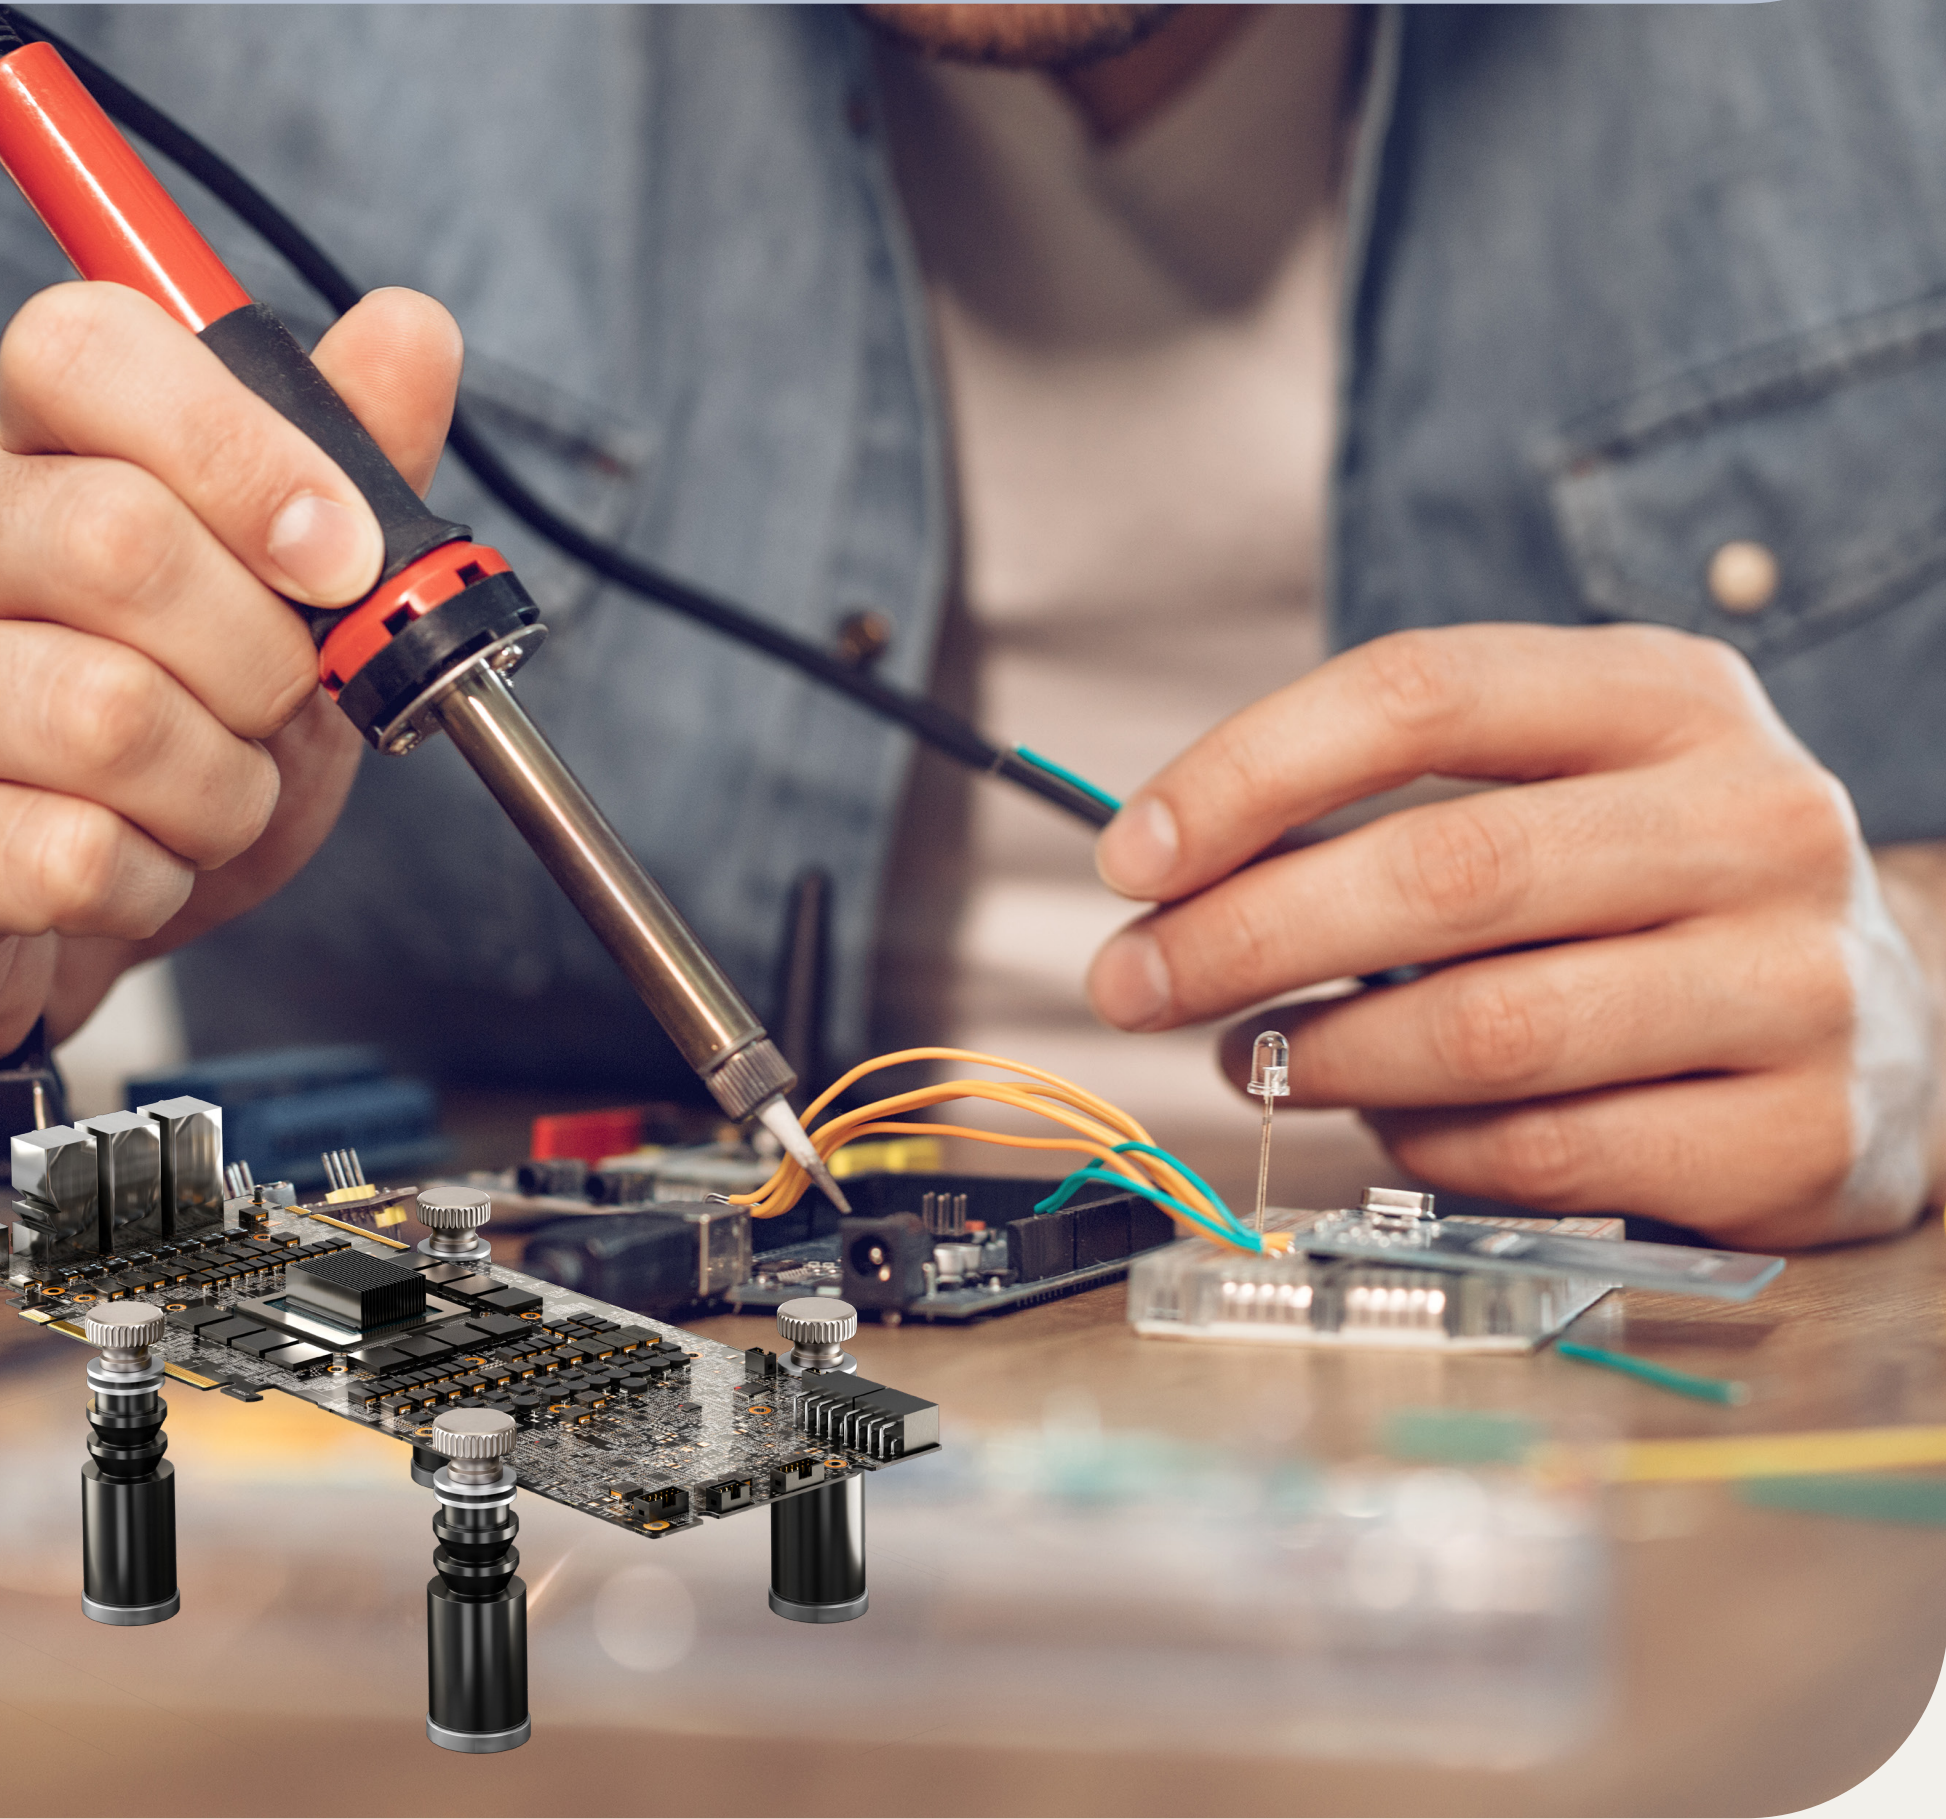

Non-slip rubber nubs on the feet of the soldering aid ensure a secure stand

				Packaging: Retail Box
