HDMI™ Audio Extractor

4K @ 30 Hz

4K @ 30 Hz **Plug & Play**

HDMI™ converter for top digital and analogue sound quality, perfect for transmission to devices without their own HDMI™ connection, e.g. headphones, hi-fi system, soundbar or TV

The HDMI™ sound splitter converts the incoming HDMI™ digital audio signal into an analogue stereo signal for connected end devices

Via the HDMI™ output, the HDMI™ audio splitter achieves a video resolution of max. 4K2K @ 30 Hz and also supports 3D

Plug & Play facilitates connecting the S/PDIF splitter without installing additional drivers

The sturdy aluminium housing dissipates heat and allows for easy cable management with the rear connection arrangement

With gold-plated connections for corrosion protection and high-quality signal transmission

				Packaging: Bulk

HDMI™ Switch 2 to 1

8K @ 60 Hz

8K @ 60 Hz **Plug & Play**

The HDMI™ switch transmits signals from 2x input devices such as game consoles, laptops or Blu-ray players to 1x output device such as a TV, monitor or projector

High resolution: The HDMI™ switcher 2 in 1 out supports resolutions up to 8K @ 60 Hz, 3D content and HDCP

2 inputs, 1 display: At the touch of a button, either input 1 or input 2 is mirrored on the output display

The convenient switch on the HDMI™ extender eliminates the need to reconnect cables and protects the connections

Less cable clutter between Xbox, PlayStation and TV: Instead of connecting two long cables to the display, one long cable between the switch box and the TV is sufficient

The HDMI™ switchbox 2x1 is powered via the integrated USB-C™ connection (cable not included)

Note: The HDMI™ switcher does not work as a splitter!

				Packaging: Bulk

USB-C™ to USB-C™ Textile Cable with Metal Plugs

60 W, 3 A, elegant elegant and extra-robust connection cable for devices with USB-C™ Connector

60 W **480 Mbit/s** **0.15 m**

The Goobay USB-C™ charging cable for super-fast charging with 60 W

At 0.15 m long, the USB-C™ charging cable is ideal for easily connecting your smartphone to a power bank or USB car charger socket

Also perfect for data: The USB-C™ cable provides Hi-Speed data transfer rates of up to 480 Mbit/s (USB 2.0)

Thanks to the reinforced metal plug and textile coating, the USB-C™ to USB-C™ cable is extremely hard-wearing and durable

The braided textile coating of the Goobay Type-C charging cable offers a pleasant feel and is gentle on sensitive surfaces

The USB Type-C cable is universally compatible with smartphones, Apple iPhones, PCs, laptops, tablets, etc., and supports charging on Apple MacBooks

Keystone Module RJ45 CAT 6A, STP, Slim

16.6 mm wide, crocodile type, for tool-free IDC mounting

CAT 6A **RJ45** **STP** **Slim**

CAT 6A Keystone module in a slim design and 16.6 mm wide for space-saving installation in patch panels – no longer lack of space when inserting several modules next to each other

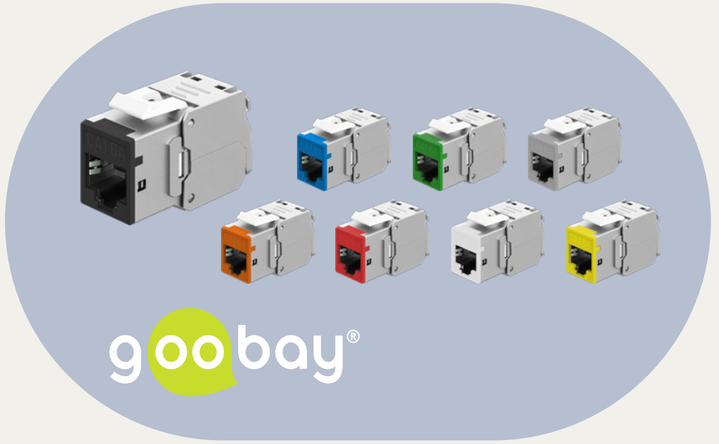
The colour of the front helps with identifying individual connections in structured cabling

STP-shielded RJ45 coupler with robust die-cast zinc housing for the flawless transmission of network signals

The module is suitable for Power over Ethernet (PoE+) in accordance with IEEE 802.3at and supports 10 Gigabit Ethernet applications at 500 MHz

Perfect for cable assembly in patch panels or control cabinets and in structured building cabling

The RJ45 socket for field assembly is suitable for solid and stranded wire



The rear RJ45 connection is TIA 568A/B colour-coded

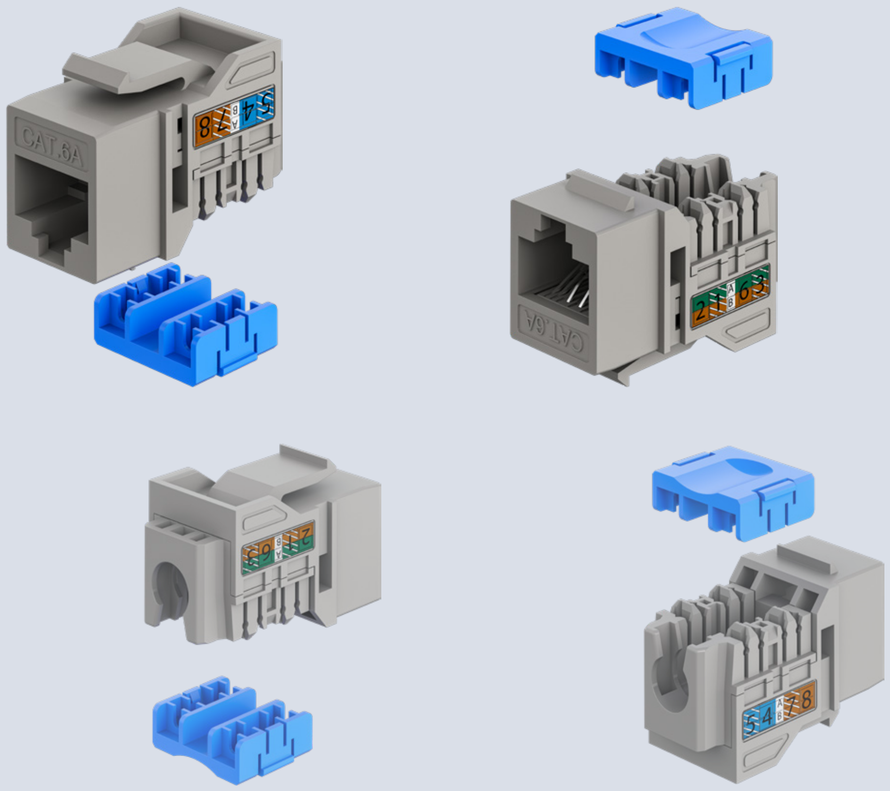
Keystone Module RJ45 CAT 6A, UTP, Slim & Short

16.5 mm wide, 29 mm deep, for tool-free IDC mounting

CAT 6A **RJ45** **UTP** **Slim** **Short**



CAT 6A Keystone module in a slim design and 16.5 mm wide for space-saving installation in patch panels – no longer lack of space when inserting several modules next to each other

With a length of only 29 mm, the module reduces the depth required on the back of the panel – handy in network cabinets and environments where cables must not protrude excessively

Quick and easy installation: After inserting the individual wires, simply and effortlessly press the top cover down (TIA 568A/ B colour-coded insulation displacement connector)

STP-shielded RJ45 coupler with robust zinc die-cast housing for flawless transmission of network signals

The module is suitable for Power over Ethernet (PoE+) in accordance with IEEE 802.3at and supports 10 Gigabit Ethernet applications at 500 MHz

HDMI™ Keystone Module with 2x HDMI™ Jack Sockets, 8K @ 60 Hz

HDMI™ A socket > HDMI™ A socket

8K @ 60 Hz **2x HDMI™**

Keystone module with 2x vertically aligned HDMI™ sockets for connecting HDMI™ cables routed in the wall

Also suitable for installation in Keystone patch panels, network sockets and housings

The module provides high-resolution, digital image transmission with Ultra HD at up to 8K @ 60 Hz/4K @ 120 Hz (backward compatible) and a data rate of up to 48 Gbit/s

Perfect for connecting home cinema systems, projectors, Blu-ray players or game consoles such as the PlayStation or Xbox

The white colour of the HDMI™ adapter seamlessly blends into Keystone wall plates and enclosures

Gold-plated contacts prevent corrosion and provide extra durability

Housing material: plastic

Outdoor Surface-Mounted Box IP44, 2x Keystone Ports

waterproof junction box including cable gland and Keystone bracket, without module

CAT 6A **2x RJ45** **IP44**

Surface-mounted box with 2x empty ports for Keystone modules, ideal for use in damp rooms and outdoor areas (IP44), e.g. in the garden, basement or garage

Straight cable routing in the box for a 180° cable outlet

With two universal Keystone ports: Suitable for all standardised Keystone modules, from RJ45 for CAT cables to USB or satellite antennas

The lid of the box can be easily opened and closed (for use) and, if necessary, you can break off two recesses for a permanent cable passage

The housing is fixed to the wall with screws (mounting material included)

With a clear plastic display to label the individual connections for a perfect cable management

Housing dimensions: 76.3 x 81.4 x 57 mm

				Packaging: Bulk

Mini Motion Detector

for flush ceiling mounting, 360° detection, 6 m/8 m range,
for indoor use (IP20), LED-compatible

IP20 | **∢ 360°** | **6 m/8 m** | **PIR sensor**

The sensor has a range of 8 m when mounted on a wall and 6 m when mounted on a ceiling

Light sensitivity (3 lx to 2000 lx) and switch-off delay (10 s to 8 min) are easily and continuously adjustable behind the cover with the rotary control

Suitable for connecting LED lighting and energy-saving bulbs up to 400 W and incandescent bulbs up to 800 W

With loose cable ends and two mounting eyelets on the controller unit for easy screw-in mounting in flush-mounted boxes, in the ceiling or in cavity walls

With a detection angle of 360°, ideal for surface-mounted ceiling installation, installation height on wall: 1.80 m to 2.50 m, installation height on ceiling: 2.20 m to 4 m

The PIR sensor reacts to the movement of people or animals and activates the connected lighting when it is dark

Replaces the light switch and switches without contact: Particularly practical in rooms that you enter with your hands full, e.g. hallways or utility rooms

				Packaging: Retail Box

Motion Detector

for flush wall mounting, 160° detection,
9 m range, for indoor use (IP20)

IP20 | **160°** | **9 m** | **PIR sensor**

Can be used as a motion detector or as a regular light switch thanks to the switch with 3 modes: On, Off and PIR

Light sensitivity (3 lx to 2000 lx) and switch-off delay (10 s to 7 min) are easily and continuously adjustable behind the cover with the rotary control

Suitable for connecting LED lighting and energy-saving bulbs up to 200 W and incandescent bulbs up to 500 W

Ideal for horizontal and vertical installation in flush-mounted or cavity wall boxes, installation height: 1.00 to 1.80 m

Perfect for LED lighting as part of home automation or indoor security systems (protection class IP20

The PIR sensor reacts to the movement of people or animals and activates the connected lighting when it is dark

Replaces the light switch and switches without contact: Particularly practical in rooms that you enter with your hands full, e.g. hallways or utility rooms

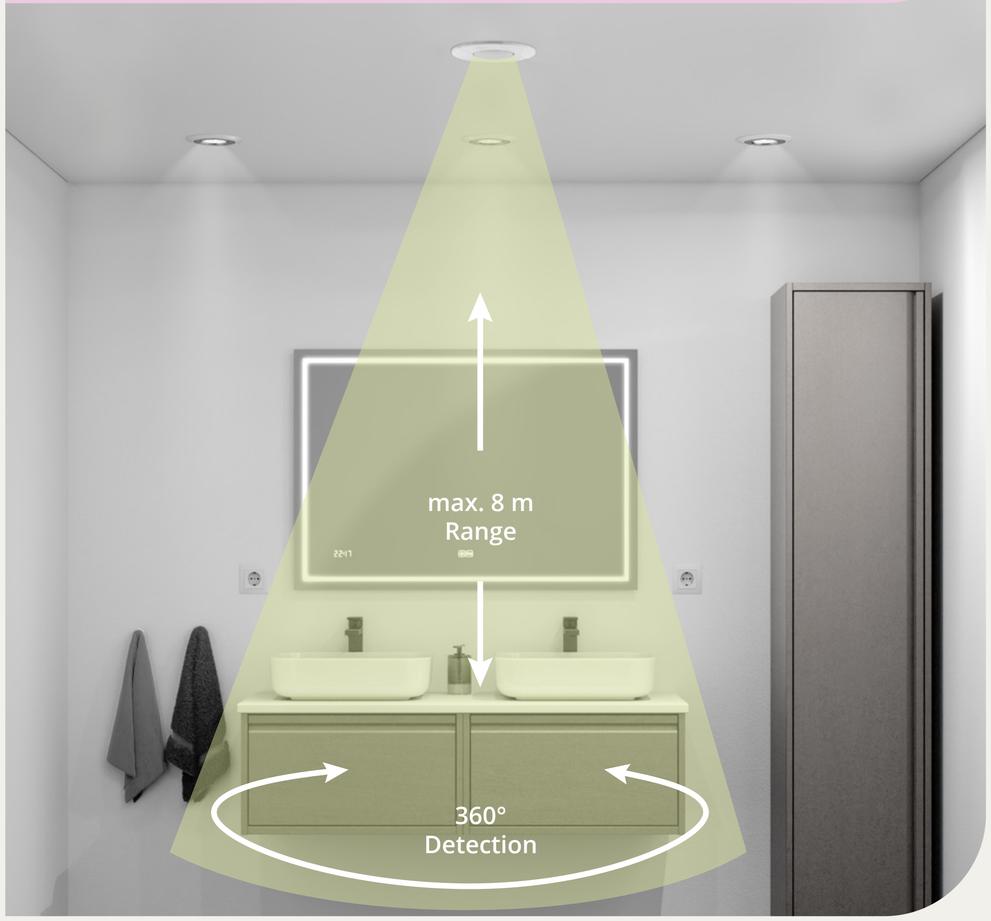
wentronic

Compact Motion Detector

for flush-mounted ceiling installation, 360° detection, 8 m range, for indoor use (IP20), LED-compatible

IP20 | **360°** | **8 m** | **PIR sensor**



Light sensitivity (3 lx to 2000 lx) and switch-off delay (10 s to 15 min) are easily and continuously adjustable using a rotary control

Discreet appearance, easy to use: The rotary controls for light sensitivity and switch-off delay are located under the sliding cover to adjust the settings at any time – without dismounting and without tools

Suitable for connecting LED lighting and energy-saving bulbs up to 600 W and incandescent bulbs up to 1200 W

With a detection angle of 360°, ideal for flush-mounted ceiling installation, installation height: 1.80 m to 4 m

Perfect for LED lighting as part of home automation or indoor security systems (protection class IP20)

wentronic

2-in-1 Motion Detector

for surface and flush mounting, 360° detection, 8 m range,
for indoor use (IP20), LED-compatible

IP20 | **∢ 360°** | **8 m** | **PIR sensor**

Suitable as a flexible 2-in-1 solution for flush-mounted and surface-mounted installation, including brackets and canopy for the respective installation options

Light sensitivity (3 lx to 2000 lx) and switch-off delay (10 s to 15 min) are easily and continuously adjustable behind the removable cover using a rotary control

Discreet appearance, easy to use: The rotary controls for light sensitivity and switch-off delay are located under the removable cover to adjust the settings at any time – without dismounting and without tools

Suitable for connecting LED lighting and energy-saving bulbs up to 600 W and incandescent bulbs up to 1200 W

With a detection angle of 360°, ideal for flush-mounted ceiling installation, installation height: 2.20 m to 4 m

Perfect for LED lighting as part of home automation or indoor security systems (protection class IP20)

Motion Detector Slim

for surface-mounted ceiling mounting, 360° detection,
8 m range, for indoor use (IP20), LED-compatible

Slim | **IP20** | **360°** | **8 m** | **PIR sensor** | **2.5 cm flat**

Discreet look, easy operation: The cover can be easily twisted off to adjust the light sensitivity and switch-off delay even after installation – without dismounting or screwing

Light sensitivity (3 lx to 2000 lx) and switch-off delay (10 s to 15 min) are easily and continuously adjustable behind the removable cover with the rotary control

Perfect for LED lighting as part of home automation or indoor security systems

Replaces the light switch and switches without contact: particularly practical in rooms where you enter with your hands full, e.g. hallways or utility rooms

Suitable for connecting LED lighting and energy-saving lamps up to 400 W and incandescent lamps up to 800 W

With a detection angle of 360°, ideal for surface-mounted ceiling installation, installation height: 2.20 m to 4 m

The PIR sensor reacts to the movement of people or animals and activates the connected lighting when it is dark

Motion Detector, Tiltable

for surface-mounted wall installation, 140° detection, 12 m range, for outdoor use (IP44), LED-compatible

IP44 | **140°** | **12 m** | **Infrarot sensor** | **± 90° tiltable**

Flexible adjustment: The infrared sensor tilts up and down by 90° for optimised alignment

Light sensitivity (3 lx to 2000 lx) and switch-off delay (10 s to 15 min) can be easily and continuously adjusted using the rotary control on the underside

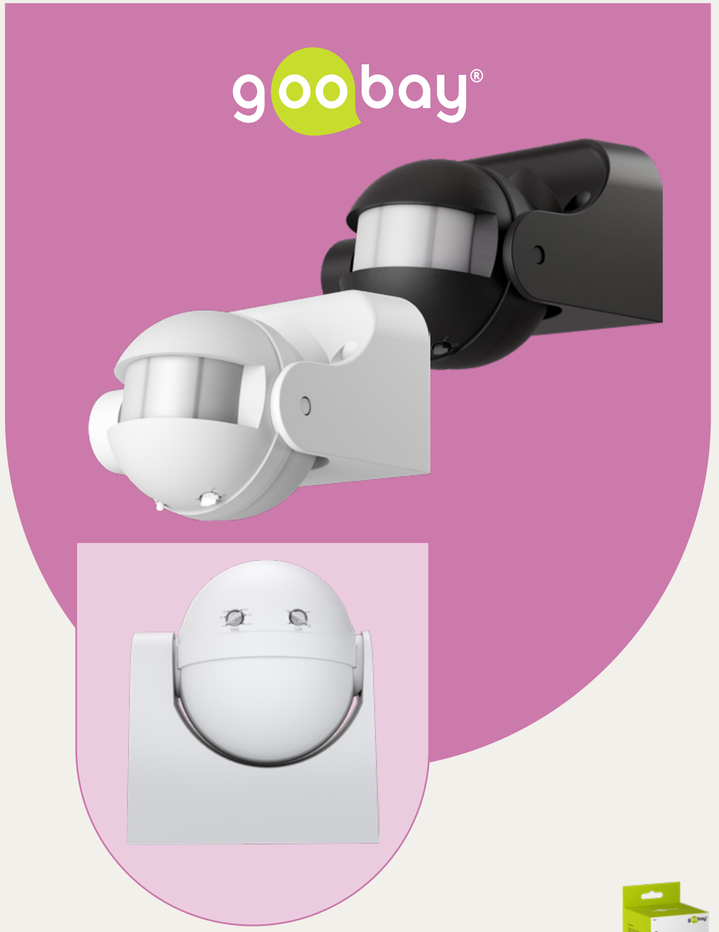
Suitable for connecting LED lighting and energy-saving bulbs up to 600 W and incandescent bulbs up to 1200 W

Ideal for surface-mounted wall installation (mounting materials included), installation height: 1.80 m to 2.5 m

Splash protection according to protection class IP44, making it suitable for use in outdoor areas and damp rooms

The PIR sensor reacts to the movement of people or animals and activates the connected lighting when it is dark

Replaces the light switch and switches without contact: Practical for monitoring outdoor areas such as carports, house entrances, driveways or gardens



Packaging: Retail Box

2-Zone Motion Detector, Tiltable/Swivelling

for surface-mounted wall installation, 180°/360° detection, 12 m range, for outdoor use (IP44), LED-compatible

IP44 | **180°/360°** | **12 m** | **PIR sensor** | **Tiltable** | **Swivelling**

- **Bottom and front detection**
- **No blind spots below the device**

Double flexibility: With 2 infrared sensors for horizontal (180°) and vertical detection (360°). The head joint can be rotated and tilted for optimised alignment.

Light sensitivity (3 lx to 2000 lx) and switch-off delay (10 s to 15 min) can be easily and continuously adjusted using the rotary control on the underside

Suitable for connecting LED lighting and energy-saving lamps up to 600 W and incandescent lamps up to 1200 W

Ideal for surface-mounted wall installation (mounting materials included), installation height: 1.80 m to 2.50 m

Splash protection according to protection class IP44, making it suitable for use in outdoor areas and damp rooms

Wireless LED Table Lamp, Size S, 25 cm

with touch control, 150 lm, warm white (3000 K)

Wireless | **Warm white** | **Dimmable** | **IP44**

The lamp stands out with its elegant touch control and built-in battery, offering cordless flexibility for use in any location

With its modern design, the lamp blends into any interior: As a living room or bedside lamp, as an eyecatcher in the office or as a table lamp in restaurants

The LED lamp switches between three brightness levels and off mode with a light touch on the top

The high-quality 18650 lithium battery ensures a particularly long service life and an excellent runtime of up to 5 hours at 100 % brightness and up to 12 hours at 20 % brightness

Thanks to its splash water protection (protection class IP44), the table lamp is also perfect for the patio, balcony or garden

The lampshade and base are made of robust metal - for high stability without tipping over and a long service life

Incl. USB charging cable (0.5 m, USB-C™ to USB-A) for easy charging via USB charger, laptop or power bank
